

An artistic illustration-style advertisement for BOAT audio equipment. Four models—a woman in a red jumpsuit wearing large black headphones, and three men in stylish dark clothing—are posed behind a variety of BOAT products. The products include a large black and red BOATHEROO speaker with two drivers, a tall black rectangular speaker, a small black cube speaker, a long black soundbar with "Dolby Audio" branding, a pair of blue over-ear headphones, green wireless earbuds in their case, and a black smartwatch with a red strap. A microphone lies horizontally across the front of the soundbar. The entire scene is set against a dark, moody background with warm lighting highlighting the products and models.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013**Item No. 3:**

The Members are requested to note that in accordance with the provisions of the Act, Members of the Company, at the 9th Annual General Meeting held on December 23, 2022, had accorded their approval for payment of remuneration by way of commission to Non-Executive Director(s) and Independent Directors of the Company, for a period of 5 (five) years commencing from financial year 2022-23 to financial year 2026-27, a specified amount or at a specified percentage of net profits, not exceeding in aggregate, 1% (one percent) of the net profits of the Company of each financial year calculated in accordance with Section 198 of the Act.

Pursuant to the resolution passed by the members at the 9th AGM, the Board of Directors had approved the payment of a fixed remuneration by way of a specified amount upto Rs. 15,00,000/- per such Non-Executive Director(s) (NEDs) and Independent Directors (IDs) (till the balance term of appointment), from time to time, of the Company for a period of 5 (Three) years commencing with the payment for the financial year 2022-23 to financial year 2026-27, or as may be decided by the Board of Directors from time to time.

The Members are requested to note that the Ministry of Corporate Affairs has vide notification dated March 18, 2021 amended the provisions of Section 149, Section 197 and Schedule V of the Act to enable companies having no profits or inadequate profits to pay remuneration to its non-executive director(s) including independent directors provided the conditions specified under the Schedule V of the Act are complied with. Schedule V of the Act prescribes limits/criteria for payment of remuneration to non-executive directors in case of absence or inadequacy of profits, by obtaining approval of members of the Company by way of a resolution.

In view of the inadequacy of the profits and no profits in any given financial year including financial year 2026-27 and in order to enable the Company to appropriately compensate the Non-Executive Director(s) (NEDs) and Independent Directors (IDs), it is proposed to seek approval of Members under the provisions of, inter-alia, Schedule V to the Companies Act, 2013 for the financial year 2026-27 to pay a fixed remuneration of Rs. 15,00,000/- per annum per such NED and ID (till the balance term of appointment), from time to time, notwithstanding that the aggregate amount of such remuneration may exceed one percent of the net profits of the Company as computed in the manner provided in section 198 of the Companies Act, 2013, with an authority to the Board of Directors to determine the manner and proportion in which the amount be distributed among the Non-Executive Director(s) and Independent Directors.

Members may please note that considering the vast experience and expertise of Non- Executive Director(s) and Independent Directors in their respective fields, and the need for them to devote time and efforts in helping the Company to take vital strategic decision, the Nomination & Remuneration Committee recommended on May 25, 2026 and the Board of Directors on May 26, 2026, subject to the approval of Members, approved payment of remuneration of upto Rs. 15 Lakhs per annum to each Non-Executive Director(s) and Independent Directors (till the balance term of appointment) of the Company for the financial year 2026-27 under Schedule V of the Act. The payment of remuneration would be in addition to the sitting fees and other reimbursements payable to them for attending the meetings of the Board of the Directors and committees.

The Company proposes to clarify that the remuneration by way of commission payable to the Non-Executive Director(s) and Non-Executive Independent Directors for the financial year 2026-27 shall continue to be governed by the resolution approved by the Members at the 9th Annual General Meeting. Accordingly, each Non-Executive Director and Non-Executive Independent Director shall be entitled to such commission for the period during which he/she holds office and remains eligible for such remuneration during the financial year 2026-27, subject to the terms of the said resolution and applicable provisions of law.

Brief profile(s) of the Non-Executive Director(s) and Independent Directors and disclosure(s) / information under the Secretarial Standards on General Meeting issued by the Institute of Company Secretaries of India are set out in Annexure to the AGM Notice.

Members are requested to note that payment of remuneration to Non-Executive and Independent Directors (till the balance term of appointment) of the Company for the financial year 2026-27 under Schedule V read with Section 197 of the Companies Act, 2013, shall require approval of the Members of the Company by way of a Special Resolution.

The Resolution at Item No. 3 is an enabling resolution seeking approval of Members for payment of fixed remuneration to Non-Executive Director(s) and Independent Directors, for the financial year 2026-27 in accordance with the provisions of Schedule V to the Companies Act, 2013 as per the limits mentioned therein.

The Company has not defaulted in payment of dues to any bank or public financial institution or other secured creditor, if any. The Company has not issued any non-convertible debentures

The Board of Directors recommends the resolution set out at Item No. 3 of the AGM Notice to the Members for their consideration and approval, by way of a Special Resolution.

Except the Non-Executive Director and the Independent Directors of the Company and their relatives, none of the other Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 3 of the AGM Notice.

Information as required to be disclosed under clause (iv) of the second proviso after Para B of Section II of Part II of Schedule V to the Act is mentioned in **Annexure I**.

ITEM NO. 4

The Company is proposing to undertake an initial public offer of the equity shares of face value of ₹1 each (“**Equity Shares**”) of the Company comprising of fresh issuance of Equity Shares by the Company (“**Fresh Issue**”) and an offer for sale of Equity Shares by certain existing shareholders (“**Selling Shareholders**”) (“**Offer for Sale**” and together with the Fresh Issue, the “**Offer**”), and list the Equity Shares on one or more of the stock exchanges.

The Articles of Association of the Company (the “**Articles of Association**”) are required to be amended in view of the circulars provided by the National Securities Depository Limited and Central Depositories Services (India) Limited (collectively, “**Depositories**”) dated April 7, 2026 and April 6, 2026, respectively, to ensure and conform to the requirements prescribed by the Depositories in relation to the Articles of Association prior to filing of the updated draft red herring prospectus - II with the Securities and Exchange Board of India and the relevant stock exchanges.

The Board, at its meeting held on May 26, 2026, has considered and accorded their approval for the adoption of new set of Articles of Association of the Company. Pursuant to the provisions of Section 5 and 14 of the Companies Act, 2013, the approval of the Members is sought for adoption of new set of Articles of Association (‘AOA’) of the Company, as set out in Item No. 4 of the Notice.

The copies of the existing and proposed altered Articles of Association of the Company are available for inspection by the members at the registered office of the Company on all working days, during business hours up to the date of the meeting and will also be made available at the meeting.

None of the directors, key managerial personnel, senior management of the Company or the relatives of the aforementioned persons are in any way, financially or otherwise concerned or interested in the said resolutions, except to the extent of their shareholding in the Company.

The Board recommended the passing of the resolution at Item No. 4 of the notice as a special resolution.

(2) ACCOUNTING STANDARDS

The financial statements of your Company for the year ended 31 March 2026 have been prepared under Indian Accounting Standards ('Ind AS') notified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act, to the extent applicable.

(3) STATE OF COMPANY'S AFFAIRS AND REVIEW OF BUSINESS OPERATIONS
(i) India's Macroeconomic Overview

India continues to reinforce its position as one of the fastest-growing major economies globally. As per the IMF, India is now the fifth-largest economy by nominal GDP, estimated at Rs. 332

trillion (US\$ 3.9 trillion) FY 2025. The country is expected to grow at a CAGR of 6.4% in real terms between FY 2025 and FY 2030, the highest among the G20 economies.

The growth of the Indian economy is supported by rising household incomes, urbanization, and a growing workforce, all of which are driving higher discretionary spending. At the same time, greater smartphone usage and improved internet access are speeding up the shift toward organized and online retail. These trends are creating strong growth opportunities for digital-first brands, which are well-positioned to gain market share over traditional players.

(ii) India Consumer Devices Market

The consumer devices market is estimated at Rs. 1,115 billion (US\$ 13 billion) in FY 2025 and projected to grow at a CAGR of 10-13%, reaching Rs. 1,782-2,038 billion (US\$ 21-24 billion) by FY 2030.

The growth of the consumer devices market in India will be driven by two key trends: (a) premiumization, driven by digitally enabled and trend-conscious consumers seeking vibrant designs, lifestyle-relevant, technology-led distinctive advancements, and (b) the expanding presence of offline channel/distribution reach in Tier 2 cities. This shift has contributed to the growth of the aspirational segment across multiple categories, making these devices more accessible to a wider consumer base. Looking ahead, market expansion will be driven by continuous innovation, leading to enhanced product features and functionality.

(iii) India Audio Market

The Indian audio market encompasses a wide range of products designed for personal audio and large audio and is estimated at INR 489 billion (US\$ 5.8 billion) growing at 10-13% till FY 2030 from INR 277 billion (US\$ 3.3 billion) in FY 2020. It is projected to grow at a CAGR of 10-13% between FY 2025 and FY 2030 to reach INR 777-901 billion (US\$ 9.1-10.6 billion).

The growth in the Indian audio market between FY 2025 and FY 2030 is being driven by three key factors: (a) a growing demand for premium audio products, supported by improvements in sound technology; (b) continued innovation aimed at delivering affordable, feature-rich audio solutions that offer high sound quality and compatibility with smart home systems; and (c) the expanding reach of offline retail in Tier-2 and smaller cities, which is helping audio products reach a wider customer base.

(iv) India Wearables Market

The wearables market encompasses a wide range of devices designed for personal use, including smartwatches, activity trackers, and smart rings. Smartwatches contribute ~93% of the total wearables market in FY 2025 and other wearable devices constitute the remaining 7% of the market. India's wearable market is on a growth trajectory supported by increasing consumer demand for advanced features such as fitness and health tracking and a growing emphasis on lifestyle management.

The wearables market has grown from INR 30 billion (US\$ 0.3 billion) in FY 2020 to an estimated INR 100 billion (US\$ 1.2 billion) as of FY 2025, at a CAGR of 28%. The market is likely to grow at a CAGR of 15-19% between FY 2025 and FY 2030.

(v) Other consumer devices market in India

The consumer devices market in India has expanded to encompass a diverse range of emerging categories. These include charging solutions, mobile accessories, home security products, smart luggage tags, and various home and personal care gadgets, all designed to meet evolving lifestyle needs. Growth in this segment is being driven by increasing demand for reliable charging in a

mobile-first environment, rising interest in practical and stylish accessories, greater focus on home security with the rise of smart home devices, and a growing need for convenience and tracking while travelling.

These emerging categories collectively represent a market valued at INR 527 billion (US\$ 6.2 billion) in FY 2025 and projected to grow at a CAGR of 9-11% to reach INR 802-901 billion (US\$ 9.4-10.6 billion) by FY 2030.

(vi) Business Overview

Your Company is a digital-first consumer products company offering wide range of high-quality, and aspirational lifestyle-focused consumer products at accessible price points under the flagship brand “boAt” in the wireless hearables and smartwatch segment. Your Company has established leading market positions in terms of volume and value in India across multiple consumer categories such as audio and smartwatch.

Your Company operates in the consumer devices market which comprises of a wide range of products including audio devices, wearables, charging solutions, and other emerging categories which include mobile and gaming accessories, and personal care appliances. Your Company leveraged the in-house innovations and collaborations to establish a strong presence in the aspirational price segment through premium sub-brand ‘Nirvana’ product range, offering differentiated audio experiences.

Along with the continued development and expansion of its product portfolio, your Company has significantly strengthened its distribution across both online and offline channels. While boAt has built its foundation as a digital-first consumer products company, scaling rapidly through leading online marketplaces and its own website, it has also expanded its offline presence at a fast pace. Through a robust distributor-led offline model, boAt has established a strong and growing footprint across Tier 1, Tier 2, and smaller cities. This balanced approach across online and offline channels is enabling the Company to reach a wider consumer base, increase brand visibility, and support long-term growth.

A key driver of the market leadership has also been the strength of the brand “boAt”, which enjoys high recall and engagement with consumers primarily across the audio and wearables categories, providing us with a significant competitive advantage in the marketplace. The brand positioning has resonated with the target consumers and has helped to build a relationship based on trust and affinity, which is evidenced by the community of over 20 million “boAtheads”.

During the year under review, the Standalone income of your Company stood at INR 29,683.18 million as compared to INR 30,896.43 million in the previous year, registering a decline of 3.93%. The standalone profit after tax for the year was INR 921.46 million as compared to profit after tax of INR 642.21 million in the previous year, registering an increase of 43.48%.

During the year under review, the Consolidated income stood at INR 29,646.93 million as compared to INR 30,978.14 million in the previous year, registering a decline of 4.30%. The consolidated profit after tax for the year was INR 844.92 million as compared to profit after tax of INR 610.80 million in the previous year, registering an increase of 38.33%.

Your Directors are optimistic about the performance for the financial year 2026-2027.

(4) INITIAL PUBLIC OFFERING & LISTING OF EQUITY SHARES OF THE COMPANY

The proposed IPO comprises of a fresh issue of up to ₹ 5,000 million and an offer for sale of up to ₹ 10,000.00 million by certain existing shareholders. Post IPO, equity shares of the Company are proposed to be listed on BSE Limited (‘BSE’) and the National Stock Exchange of India Limited (‘NSE’).

During the year under review, your Company has filed pre-filed draft red herring prospectus dated April 3, 2025 ('P-DRHP') with Securities and Exchange Board of India ('SEBI') and the Stock Exchanges, under Chapter IIA of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 ('SEBI ICDR Regulations') in relation to the proposed initial public offering ('IPO') of its Equity Shares on the main board of the Stock Exchanges. Your Company has received in-principle approval for the proposed listing of its shares from the BSE & NSE on June 3, 2025 and has further received final observations on August 1, 2025 from SEBI on the P-DRHP.

Further, your Company has filed the updated draft red herring prospectus – I dated October 28, 2025 filed with SEBI and the Stock Exchanges, after complying with the observations issued by SEBI and Stock Exchanges on the P-DRHP, to the extent applicable, and after incorporation of other updates, in accordance with the Chapter IIA of the SEBI ICDR Regulations and in compliance with the other applicable provisions of the SEBI ICDR Regulations, which does not contain complete particulars of the price at which the Equity Shares will be allotted and the size of the Offer.

The issue is being led by Book Running Lead Managers, viz., ICICI Securities Limited, Goldman Sachs (India) Securities Private Limited, JM Financial Limited and Nomura Financial Advisory and Securities (India) Private Limited

While the IPO journey is still underway, your Directors would like to thank the Merchant Bankers, legal counsels, Securities and Exchange Board of India, Registrar of Companies, other regulators and other stakeholders for extending its support till now. Your Directors are confident that the continued support would enable the Company to take its equity story to the public market in the coming financial year.

(5) **DIVIDEND AND RESERVES**

Your Board has not recommended any dividend on the Preference shares and Equity shares of the Company for the year under review, as the Company is in growing stage and would require funds to support its future growth.

The Board has not proposed to transfer any amount to the General Reserves.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Imagine Marketing Limited
CIN: U52300MH2013PLC249758
Unit no. 204 & 205, 2nd floor, D-wing & E-wing,
Corporate Avenue, Andheri Ghatkopar Link Road
Mumbai - 400093

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Imagine Marketing Limited (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2026 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026 according to the relevant and applicable provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder, as may be applicable;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made thereunder;
- (iii) The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment in India;
- (iv) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder; and
- (v) As confirmed by the management, there are no other laws specifically applicable in relation to the business of the Company.

We have also examined compliance with the applicable clauses of the following:

1. Secretarial Standards issued by The Institute of Company Secretaries of India ("ICSI"), as amended from time to time; and
2. Listing Agreement: The Company is an unlisted Public Company and therefore compliance with listing agreement/regulations is not applicable.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, to the extent applicable.

We further report that the Board of the Company and Committees thereof are duly constituted as per the Companies Act 2013 with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and Woman Director. The following change in the Key Managerial Personnel that took place during the year under review was carried out in compliance with the provisions of the Act:

Independent Auditor's Report

To the Members of Imagine Marketing Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Imagine Marketing Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2026, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Independent Auditor's Report (Continued)

Imagine Marketing Limited

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our

Independent Auditor's Report (Continued)

Imagine Marketing Limited

knowledge and belief were necessary for the purposes of our audit.

- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - c. The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on 1 April 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. the modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2A(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- a. The Company has disclosed the impact of pending litigations as at 31 March 2026 on its financial position in its standalone financial statements - Refer Note 33 to the standalone financial statements.
 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - d (i) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 47 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (ii) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 47 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above,

Independent Auditor's Report (Continued)

Imagine Marketing Limited

contain any material misstatement.

- e. The Company has neither declared nor paid any dividend during the year.
- f. Based on our examination which included test checks, except for the instances mentioned below, the Company has used accounting softwares for maintaining its books of accounts, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares :
 - i. The feature of recording audit trail (edit log) was not enabled at the application level for the accounting software related to the general ledger for certain changes made by a user having privileged access rights. Further, the feature of recording the audit trail (edit log) facility was not enabled at the database level to log any direct data changes.
 - ii. Based on independent auditor's report in relation to controls at a service organisation, for an accounting software used for maintaining inventory records, which is operated by a third party software service provider, the feature of recording audit trail was not enabled from 1 April 2025 to 27 June 2025.

Further, for the period where the audit trail (edit log) facility was enabled and operated, we did not come across any instance of audit trail feature being tampered with.

Additionally, where audit trail (edit log) facility was enabled in the previous years, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act: In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid/payable to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Imagine Marketing Limited for the year ended 31 March 2026

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment (including Right of use assets)
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment (including Right of use assets) by which all property, plant and equipment are verified in a phased manner over a period of two years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) The Company does not have any immovable property (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company except as follows:

Amount in Rs. million

Quarter	Name of bank	Particulars	Amount as per audited books of account *	Amount as reported in the quarterly return/statement (unaudited)	Amount of difference	Whether return/statement subsequently rectified
March 26	Citi Bank,	Trade Receivable	2,547.99	2,633.02	(85.03)	Yes

**As per the Companies Act, 2013*

This loan has been provided for during the year

** Others represents interest free unsecured loans to employees as per the policies/practice of the Company

- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the investments made and guarantee provided during the year are not prejudicial to the interest of the Company. The Company has not provided any loans or granted any advances in the nature of loans during the year.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular except for the loan of Rs. 37.00 million and interest thereon of Rs. 8.10 million which is repayable on demand. As informed to us, the Company has not demanded repayment of the loan and interest during the year. Thus, there has been no default on the part of the party to whom the money has been lent. Further, the Company has not given any advance in the nature of loan to any party during the year.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given. Further, the Company has not given any advance in the nature of loan to any party during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.
- (f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment except for the following loans to a related party as defined in Clause (76) of Section 2 of the Companies Act, 2013 ("the Act"):

All amount in Rs. millions

Annexure B to the Independent Auditor's Report on the standalone financial statements of Imagine Marketing Limited for the year ended 31 March 2026

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Imagine Marketing Limited ("the Company") as of 31 March 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to

**Annexure B to the Independent Auditor's Report on the standalone financial statements of Imagine Marketing Limited for the year ended 31 March 2026
(Continued)**

provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

1. Company Information

Imagine Marketing Limited ("Company") was incorporated on 1 November 2013 under the erstwhile Companies Act, 1956. The registered office of the Company is in Mumbai, Maharashtra, India. The principal place of business of the Company is in India. The Company is engaged in the business of trading of digital-first consumer technology products such as headphones, earphones, speakers, wearables and related accessories.

2. Material accounting policies

2.1 Basis of preparation and measurement

A. Statement of Compliance and basis of preparation

The Standalone Financial Statements of the Company comprise of Standalone Balance Sheet as at 31 March 2026, Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended 31 March 2026 (hereinafter collectively referred to as "Standalone Financial Statements").

These Standalone Financial Statements have been prepared on a going concern basis. These Standalone financial statements have been prepared on historical cost basis except for certain financial instruments, share based payments and defined benefit plans which are measured a fair value or amortised cost at the end of each reporting period as explained in accounting policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

These Standalone Financial Statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of Companies Act, 2013 (the 'Act') read with the Companies (Indian Accounting Standards) Rule, 2015 and other relevant provisions of the Act, as amended from time to time and the presentation requirements of Division II of Schedule III of Companies Act, 2013 (Ind AS compliant Schedule III), as applicable.

These Standalone Financial Statements were approved for issue by the Board of Directors of the Company in their meeting held on 05 June 2026.

The accounting policies set out below have been applied consistently to the years presented in the Standalone Financial Statements.

B. Basis of measurement

The Standalone Financial Statements have been prepared on a historical cost convention, except for the following measured at fair value:

- (i) Employee's defined benefit plan at present value of defined benefit obligation (unfunded) determined as per actuarial valuation;
- (ii) Certain financial assets and liabilities that are qualified to be measured at fair value; and
- (iii) Share based payments at fair value of the options on the date of the grant.

C. Functional currency and presentation

The Standalone Financial Statements has been presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded off to the nearest millions and decimals thereof, unless otherwise mentioned.

D. Use of judgements, assumptions and estimates

The preparation of Standalone Financial Statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent liabilities as on the date of balance sheet and the reported amount of income and expenses for the reporting period. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. They are based on historical experience and other factors that are believed to be reasonable under the circumstance. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

Estimation uncertainties:

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the amounts recognised in the Standalone Financial Statements is included in the following notes:

- Note 2.2 (e) - Impairment test of non-financial assets and financials assets
- Note 2.2 (j) - Measurement of defined benefit obligations: key actuarial assumptions and employee share-based payments
- Note 2.2 (n) - Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Note 2.2 (o) - Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources including provisions for sales return and discounts
- Note 2.2 (f) and 2.2 (p) - Provision for obsolete inventory and provision for warranties
- Note 2.2 (d) - Useful life of intangible assets
- Note 2.2 (c) - Useful life of property plant and equipment
- Note 2.2 (g) - Fair valuation of financial liabilities
- Note 2.2 (e) - Measurement of ECL allowance for trade receivables, loans and contract assets: key assumptions in determining the weighted-average loss rate

Judgements

- Note 2.2 (m) - Determining whether the arrangement contains a lease

E. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities.

The operating cycle is the time between the acquisition of assets/inputs for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

F. Fair value measurement

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

2.2 Summary of material accounting policies

(a) Revenue Recognition

Revenue from sale of goods is recognised when goods are delivered and have been accepted by our customers and it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognized.

Sale of products

The Company recognises revenue at a point in time when the performance obligation is satisfied and the goods underlying the particular performance obligation are transferred to the customer. Customers obtain control of the goods when the goods are delivered at the agreed point of delivery which generally is the premises of the customer.

Further, revenue from sale of goods is recognised based on a 5-Step Methodology in accordance with IND AS 115:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. Accumulated expenses is used to estimate the provision for discounts.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, to determine whether the transaction price should be allocated to a new performance obligation, or if the transaction price of an existing obligation should be changed. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

Other Operating Revenue

MEIS (Merchandise Exports from India Scheme) Income: The Company records MEIS income as and when the scrips are utilised. The Company follows point in time approach for recording of MEIS income.

Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Right of return

The Company provides a customer with a right to return in case of any defects or on grounds of quality. The Company uses the expected value method to estimate the goods that will be returned. For goods that are expected to be returned, instead of revenue, the Company recognizes a refund liability. A right to receive inventory on provision for sales return and corresponding adjustment to change in inventory is also recognized for the right to recover products from a customer.

Contract balances

Contract assets: The Company classifies its right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon the passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset where the right to consideration is unconditional upon passage of time. Trade receivables is presented net of impairment.

Contract liabilities: A contract liability (which we referred to as Unearned Revenue) is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due to the customer) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is received.

Trade receivables: A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets for guidance on recognition and measurement.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

(b) Recognition of dividend income, interest income or expense

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Dividend income is recognised in the Standalone statement of profit and loss on the date on which the Company's right to receive payment is established.

(c) Property, Plant and Equipment

Recognition and measurement

The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably and is measured at cost. Subsequent to recognition, all items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

If the cost of an individual part of property, plant and equipment is significant relative to the total cost of the item, the individual part is accounted for and depreciated separately.

The cost of property, plant and equipment comprises its purchase price plus any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of decommissioning, restoration and similar liabilities, if any. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the subsequent expenditure can be measured reliably.

Items such as spare parts, stand-by equipment and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life. Cost of repairs and maintenance are recognised in the Standalone statement of profit and loss as and when incurred.

Capital work in progress and Capital advances:

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

Depreciation and useful lives

Depreciable amount for assets is the cost of asset less its estimated residual value. Depreciation on Property, Plant and Equipment is calculated on the depreciable amount using the straight line method (SLM) using the rates arrived at based on the useful lives estimated by the management as prescribed in Schedule II of the Companies Act, 2013 except for Plant and Equipment where the management has derived useful life based on the technical evaluation. Depreciation is generally recognized in the Standalone statement of profit and loss.

Block	Useful Life	Useful Life as per the Act
Plant and Equipment	5 years	15 years
Furniture and fixtures	10 years	10 years
Office equipment	5 years	5 years
Computers	3 years	3 years
Leasehold Improvement	Lower of useful life of the leasehold improvement or the lease term	

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of). An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Based on the technical evaluation and consequent assessment, the management believes that its estimate of useful life as given above best represents the period over which the management expects to use these assets. Estimates in respect of method of depreciation were revised from written down value method to straight line method during the year ended March 31, 2023.

Derecognition

An item of property, plant and equipment and any significant part initially recognized is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Standalone statement of profit and loss when the asset is derecognised.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

(d) Intangible assets

Recognition and measurement

Intangible assets comprise primarily of brands and software. Intangible assets are initially recorded at cost and subsequent to recognition, intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates, and the cost can be measured reliably. All other expenditure are recognised in the Standalone statement of profit and loss as incurred. On adoption of Ind AS, the Company retained the carrying value for all of its intangible assets as recognised in the Standalone financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP and used that as its deemed cost as permitted by Ind AS 101 'First-time Adoption of Indian Accounting Standards'.

Intangible Assets Under Development

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to and has sufficient resources to complete development and to use the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Amortisation is calculated to write off the cost of intangible assets over their estimated useful lives using the straight line method, and is included in the Depreciation and Amortisation expense in the Standalone Statement of profit and loss. The useful lives of intangible assets that is considered for amortization of intangible assets are as follows:

Intangible Asset	Useful Life
Brands	10 years
Computer Software	3 to 5 years

The amortisation period and the amortisation method for an intangible asset with finite useful life is reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such changes is accounted for as a change in an accounting estimate.

Derecognition

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Standalone statement of profit and loss when the asset is derecognised.

(e) Impairment

(i) Non-financial assets

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets is considered as a cash generating unit (CGU). If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the Standalone Statement of Profit and Loss.

Recoverable amount is higher of an assets or cash generating unit's value in use and its fair value less cost of disposal. Value in use is the estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used.

An impairment loss is reversed in the Standalone statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognised for the asset in prior years.

(ii) Financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Company recognises loss allowances using the expected credit loss (ECL) model as per Ind AS 109 for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit or loss.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. Lifetime ECL are the expected credit losses resulting from all possible defaults events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

The Company considers a financial asset to be in default when:

- the counter party is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset in respect of trade receivables is 365 days or more past due and for trade receivables less than 365 days, the Company identifies on case-to-case basis whether there is a risk of default.

ECL are measured in a manner that they reflect unbiased, and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company expects no significant recovery from the amount written off during the year.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 365 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

(f) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprises purchase price, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In determining the cost, weighted average cost is used. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs to sell. The comparison of cost and net realisable value is made on an item-by-item basis.

Inventories are stated net of write down or allowances on account of obsolescence, damage or slow-moving items. The provision for inventory obsolescence is assessed periodically and is provided as considered necessary.

The Company imports the raw material and sells the same to the manufacturers in India. The cost of raw materials purchased and sold are netted off against the purchase of finished goods from the manufacturer since the cost of finished goods purchased from those manufacturers are inclusive of the cost of raw material transferred to them.

(g) Financial Instruments

Financial Assets

i) Recognition and initial measurement

All financial assets and liabilities are initially recognized when the Company becomes a party to contractual provisions of the instrument. A financial asset or liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction cost that are directly attributable to its acquisition or issue. However trade receivables that do not contain significant financing component are recognised at transaction price. For regular way purchases of financial assets, the Company follows the trade date accounting method, whereby a financial asset is recognized on the trade date—the date on which the Company commits to purchase the asset.

ii) Classification and subsequent measurement

On initial recognition, a financial instrument is classified and measured at

- Amortised cost
- Fair value through other comprehensive income (FVOCI) - debt instruments;
- Fair value through other comprehensive income (FVOCI) - equity investments; or
- Fair value through profit and loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal amounts outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collect contractual cash flows and selling financial assets; and
- The contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal amounts outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI - equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes mutual funds. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Subsequent measurement and gains and losses

Financial assets at FVTPL:

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income are recognized in profit or loss.

Financial assets at amortised cost:

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

Debt investments at FVTOCI:

These assets are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVTOCI:

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are not reclassified to profit or loss.

iii) Derecognition of financial assets

A financial asset is derecognized only when:

- The Company has transferred the rights to receive cash flows from financial asset or
- Retains the contractual rights to receive the cash flows from financial asset but assumed a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized. Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset. For regular way sales of financial assets, the Company applies trade date accounting, whereby the asset is derecognized on the trade date, i.e., the date on which the Company commits to sell the asset.

Investment in Subsidiaries, Associate(s) and Joint Venture

"The investments in subsidiaries, associate(s) and joint ventures are carried in the Standalone financial statements at historical cost except when the investment, or a portion thereof, is classified as held for sale, in which case measured at lower of carrying amount and fair value less costs to sell. When the Company is committed to a sale plan involving disposal of an investment, or a portion of an investment, in any subsidiary or joint venture or the portion of the investment that will be disposed of is classified as Held for sale when the criteria described above are met. Any retained portion of an investment in a subsidiary or a joint venture that has not been classified as held for sale continues to be accounted for at historical cost. Investments in subsidiaries and joint ventures carried at cost are tested for impairment in accordance with Ind AS 36 Impairment of Assets. The carrying amount of the investment is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount, any impairment loss recognised reduces the carrying amount of the investment.

Financial liability

i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or amortised cost. All financial liabilities are recognized initially at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs.

ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Separate embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to Standalone statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Standalone statement of profit or loss. The Company has not designated any financial liability as at fair value through profit or loss other than series C CCPS which is classified as financial liability designated as FVTPL (Refer note 18).

Amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Standalone statement of profit and loss."

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Standalone statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(h) Cash and cash equivalents

(i) Cash and cash equivalent includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

(ii) Statement of Cash Flows

Cash flows are reported using the indirect method, whereby net profit before taxes for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. Bank overdrafts and cash credits which are repayable on demand form an integral part of Company's cash management and are included as a component of cash and cash equivalents.

(i) Foreign Currency transactions and translations

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign currency denominated monetary assets and liabilities are translated into relevant functional currency at exchange rates in effect at the balance sheet date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in Standalone statement of profit and loss. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss and are generally recognised in Standalone statement of profit and loss, except exchange differences arising from the translation of the following items which are recognised in OCI:

- equity investments at fair value through OCI (FVOCI)
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

(j) Employee Benefits

(i) Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified contributions towards Government administered provident fund scheme, labour welfare fund and employees' state insurance scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in Standalone Statement of profit or loss in the periods during which the related services are rendered by employees.

(ii) Defined Benefit Plan

The Company's gratuity plan is a defined benefit plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

All remeasurement gains and losses arising from defined benefit plans are recognised in the Standalone statement of other comprehensive income in the period in which they occur and not reclassified to the Standalone statement of profit and loss in the subsequent period. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense related to defined benefit plans are recognised under "Finance costs" in the Standalone statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the Standalone statement of profit and loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs in the Standalone statement of profit and loss.

(iii) Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

Short term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g. short term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the amount of obligation can be estimated reliably.

(iv) Other long-term employee benefits:

The Company's net obligation in respect of long-term employment benefits, other than gratuity, is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated at the balance sheet date on the basis of an actuarial valuation done by an independent actuary using the projected unit credit method and is discounted to its present value and the fair value of any related assets is deducted. Remeasurements gains or losses are recognised in the Standalone statement of profit and loss in the period in which they arise.

Compensated absences which are not expected to occur within twelve months after the end of the year in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date. The discount rates used for determining the present value of the obligation under long term employment benefits, are based on the market yields on Government securities as at the balance sheet date.

(v) Equity settled share-based payments

Employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Standalone Statement of Profit and Loss. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(k) Borrowing Costs

Borrowing costs include:

- (i) interest expense calculated using the effective interest rate method;
- (ii) finance charges in respect of leases;
- (iii) interest expenses on bill discounting; and
- (iv) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the Standalone statement of profit and loss in the period in which they are incurred.

(l) Share Issue Expenses

Incremental costs directly attributable to the issue of new equity shares are adjusted with securities premium, and those attributable to offer for sale are shown as recoverable from the selling shareholders.

(m) Leases

The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease"

Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liability

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date when the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company has applied the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) and low-value assets recognition exemption.

(n) Income Taxes

Income tax expenses comprises current and deferred tax. It is recognised in standalone statement of profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income. The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Imagine Marketing Limited

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

The Company has recognised a separate deferred tax assets in relation to its lease liabilities and a deferred tax liability in relations to its right-to-use assets.

(o) Provisions, Contingent liabilities and Contingent assets

(i) General provision

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Standalone Statements of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(ii) Contingent liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

(iii) Contingent assets

Contingent assets are neither recognised nor disclosed in the Standalone financial Statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

(p) Warranties

The Company recognises provision for warranties in respect of the products that it sells. These are reviewed at each balance sheet date and adjusted to reflect the current estimates. A provision is recognised for expected warranty claims on products sold during the year based on the past trend for actual warranty claims.

(q) Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to the owners of the Company for the year by the weighted average number of equity shares outstanding during the reporting period (including instruments entirely equity in nature). The diluted earnings per share is computed by dividing the profit attributable to equity holders (after adjusting the cost recognised during the period for convertible instruments) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

(r) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Director who is designated the chief operating decision maker (CODM). The Company has identified reportable segments based on the dominant source, nature of risks and return and the internal organisation and management structure and for which discrete Financial Statements is available. The CODM monitors the operating results of the entity at segment level for the purpose of making decisions about resource allocation and performance assessment. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available.

Revenue and expenses directly attributable to segments are reported under each reportable segment. Other expenses which are not attributable or allocable to segments are disclosed separately. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the Standalone financial Statements. However, the Company's financing (including finance costs and finance income) and income taxes are managed on a Company basis and are not allocated to operating segments. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as unallocable assets and liabilities.

2.3 Recent accounting developments and pronouncements

Ministry of Corporate affairs ("MCA") notifies new standards or amendments to the existing standards under new Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2026, MCA has notified amendment to the existing standards applicable to the Company which are not yet effected.

Ind AS 1 – Presentation of Financial Statements - If a covenant breach occurs on or before the reporting date and the liability becomes payable on demand, it must be classified as current, even if the lender subsequently agrees not to demand repayment. It is classified as current because, at the reporting date, the entity does not have the right to defer settlement for at least 12 months. However, if the lender has already provided—by the reporting date—a grace period extending at least 12 months beyond that date, during which the breach can be rectified and repayment cannot be demanded, the liability is classified as non-current.

This amendment is to be applied retrospectively for annual reporting periods beginning on or after 1 April 2026, in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors

The Ministry of Corporate Affairs has vide notification dated 7 May 2025 and 13 August 2025 , notified Companies (Indian Accounting Standards) Amendment Rules, 2025 which amends certain accounting standards, and are effective 1 April 2025. Below is the recent change to the Accounting Standards that are required to be applied by an entity with an annual reporting period beginning on 1 April 2025.

Ind AS 107 – Financial Instruments: Disclosures and Ind AS 7 – Statement of Cash Flows

New disclosure requirements apply to supplier finance arrangements where:

- A finance provider pays suppliers on behalf of the company.
- The company pays on the same or a later date.
- The company receives extended terms or suppliers receive early-payment benefits.

Required disclosures include:

- a. Terms and conditions of the arrangements.
 - b. At beginning and end of the reporting period:
 - i. Carrying amounts and balance-sheet line items of liabilities under these arrangements.
 - ii. Liabilities already paid to suppliers by finance providers.
 - iii. Payment-due-date ranges for these liabilities and comparable trade payables.
 - c. Type and effect of non-cash changes (e.g., exchange differences, business combinations).
- Entities must also disclose the type and effect of non-cash changes in the carrying amounts of the financial liabilities that are part of a supplier finance arrangement.
 - Supplier finance arrangements are now explicitly included in Ind AS 107 as examples for quantitative liquidity risk disclosures.

* Right to receive inventory on provision for sales return: Customers of the Company have right to return in case of any defects or on grounds of quality. The Company uses expected value method to estimate the goods that will be returned. For goods that are expected to be returned, instead of revenue proceeds, the Company recognises a refund liability.

- (i) There are no advances in the nature of loans to promoters, directors, KMPs or related parties (as defined under Companies Act, 2013) either severally or jointly with any other person, that are:

- (a) repayable on demand; or
- (b) without specifying any terms or period of repayment.

Advance to Vendors as at 31 March, 2026 includes \$3.58 Million (31 March 2025: \$2.5 Million) advanced to foreign vendors for inventory, outstanding for more than six months due to non-receipt of materials or repatriation. This results in non-compliance with the Master Circulars issued by the Reserve Bank of India with respect to prescribed timelines for receipt of goods against the advances given or remittance of monies back into India. Out of the total outstanding advances mentioned above, the management has already written to its AD Banker for permission to write-off of \$ 1.9 Million and is reasonably confident of obtaining the approval from the competent authorities and believes that the approval for an extension of time is only a procedural matter and any fees/penalties in relation to obtaining such a condonation will not be material.

The Company has created a provision of ₹ 18.80 Million for the anticipated penalty in the Financial Statements, (included in " Other Expenses").

(b) Rights, preferences and restrictions attached to equity shares:

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held and after payment to the secured and unsecured loan.

(c) Rights, preferences and restrictions attached to preference shares:

The Company has three classes of preference shares i.e. 0.01% Non-Cumulative Compulsory Convertible preference shares of ₹ 10 each ('Series A CCPS'), 0.01% Cumulative Compulsory Convertible preference shares of ₹ 6,000 each ('Series B CCPS'), 0.01% Cumulative Compulsory Convertible preference shares of ₹ 3 each ('Series C CCPS').

Series A CCPS comprises Series A CCPS and Series A1 CCPS, both convertible at a ratio of 1:1 (that is 1 Equity Share shall be issued upon conversion of 1 Preference Share), having a right to preferred non-cumulative dividend of 0.01% per annum and of the par value of ₹ 10 each in the capital of the Company. Each Preference Share may be converted into Equity Shares at any time at the option of the holder of that Preference Share and/or if mandated by applicable laws.

Subject to applicable Laws, the preference shares shall be automatically converted into equity shares in the ratio of 1 Equity Share for 1 Preference Share ('Conversion Ratio'), upon the earlier of (i) expiry of 19 years and 9 months from the Closing Date or (ii) in connection with an IPO, prior to the filing of a red-herring prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

NOTE 16 : SHARE CAPITAL (CONTINUED)

Series B CCPS comprises Series B CCPS and Series B1 CCPS, both cumulative participating compulsorily and fully convertible preference shares having a face value of ₹ 6,000 each, convertible at a ratio of 1:2000 * (that is 2000 Equity Shares shall be issued upon conversion of 1 Preference Share), having a right to preferred cumulative dividend of 0.01% per annum and of the par value of ₹ 6,000 each in the capital of the Company. Each Preference Share may be converted into Equity Shares at any time at the option of the holder of that Preference Share and/or if mandated by applicable laws.

Subject to applicable Laws, the preference shares shall be automatically converted into equity shares in the ratio of 2000 Equity Shares for 1 Preference Share ('Conversion Ratio'), upon the earlier of (i) expiry of 19 years and 9 months from the Closing Date; or (ii) in connection with an IPO, prior to the filing of a red-herring prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

* As per the original terms of Series B CCPS, the conversion ratio was 1:1 (that is 1 Equity Share shall be issued upon conversion of 1 Preference Share). During the year ended 31 March 2022, pursuant to the Corporate Event being issuance of Bonus Equity Shares and Bonus Series A CCPS and the face value of the equity shares was sub-divided from ₹ 10 per Equity share to ₹ 1 per Equity share the Company adjusted the conversion price for Series B CCPS in accordance with their terms of issuance as set out in the articles of association and the amended shareholders agreement dated 9 April 2021 from ₹ 283,749 to ₹ 141.88. Accordingly, the revised conversion ratio is 1:2000.

- (iii) The Company has registered all the charges or satisfaction with the Registrar of Companies (ROC) by the statutory date.

- (iv) The Company has not been declared a Wilful defaulter.

- (v) There has been no discrepancy in utilisation of borrowings.

(vi) Terms of series C CCPS:

During the year ended 31 March 2023:

Pursuant to a Shareholders Agreement (SHA) dated 24 October 2022 entered into by and between Imagine Marketing Limited, Sameer Mehta (Promoter 1), Aman Gupta (Promoter 2), Fireside Ventures Investment Fund - I (Scheme of Fireside Ventures Investments Trust), South Lake Investments Ltd, Qualcomm Ventures LLC, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund and the Share Subscription Agreement (SSA) dated 24 October 2022 entered into by and between Imagine Marketing Limited, the Promoters, South Lake Investments Ltd, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund, the Company issued 6,657,791 0.01% Cumulative Compulsory Convertible preference shares of ₹ 3 each to South Lake Investments Ltd, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund on December 2, 2022 on a private placement basis as per the provisions of Section 42 of the Companies Act, 2013. Consequent to such issue of shares, the Company received ₹ 5,000 million the details of which are included in the table below:

Type of share	Amount in ₹ million
Carrying amount of liability as at April 01, 2024	5,039.95
Add: Fair value loss on account of changes in financial liabilities	6.52
Carrying amount of liability as at March 31, 2025	5,046.47
Add: Fair value loss on account of changes in financial liabilities	-
Carrying amount of liability as at March 31, 2026	5,046.47

- (vii) Series C CCPS comprises cumulative compulsorily and fully convertible preference shares having a face value of ₹ 3 each, to be converted into such number of equity shares of face value of ₹ 1 each as per the adjustment ratio linked to next external funding round as mentioned in the shareholding agreement (SHA) dated October 24, 2022. Further, the Series C CCPS has a right to preferred cumulative dividend of 0.01% per annum and of the par value of ₹ 3 each in the capital of the Company.

Subject to applicable Laws, the preference shares shall be automatically converted as per the terms mentioned above, upon the earlier of (i) expiry of 19 years and 9 months from the of the issuance and allotment; or (ii) in connection with an IPO, prior to the filing of a red-herring prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

As per Ind AS 32 - Financial Instruments: Presentation, and terms and conditions mentioned in the SHA mentioned above, the Company has classified the same as financial liability since it comprises an obligation on the Company to deliver a variable number of shares on the basis of conversion ratio and price as defined in the SHA. Although the variability is subject to the adjustment ratio as mentioned in the SHA at the time of conversion, the overall number of equity instruments that the issuer is obliged to deliver is not fixed. Since the variability is limited by a cap and a floor, it features an embedded derivative and therefore is to be measured at fair value, with all changes in fair value recognised in profit or loss.

Supplier finance arrangements

The Company participates in a supplier finance arrangement under which its suppliers may elect to receive early payment of their invoices from a bank. Under the arrangement, the bank agrees to pay amounts due to participating suppliers in respect of invoices owed by the Company and the Company repays the bank at a later date. The principal purpose of this arrangement is to facilitate efficient payment processing and provide the willing suppliers early payment terms, compared with the related invoice payment due date. The Company has not derecognised the original trade payables relating to the arrangement because neither a legal release was obtained nor was the original liability substantially modified on entering into the arrangement. From the Company perspective, the arrangement does not significantly extend payment terms beyond the normal terms agreed with other suppliers that are not participating; however, the arrangement does provide participating suppliers with the benefit of early payment. Additionally, the Company does not incur any additional interest towards the bank on the amounts due to the suppliers. The Company therefore includes the amounts subject to the arrangement within trade payables because the nature and function of these payables remains the same as those of other trade payables.

All payables under the arrangement are classified as current as at 31 March 2026 and 31 March 2025.

Additional information about the Company's trade payables is provided in the table below.

Preference dividend on cumulative CCPS is Rs. 9,248 (31 March 2025: Rs. 9,248).

Note:

- (a) For the purpose of computing Basic EPS, equity shares that are mandatorily convertible into equity are included in the weighted average number of shares outstanding from the date of their issue. Additionally, refer note 16 (c) and 18 (viii) for the conversion ratio.
- (b) Pursuant to the resolutions passed by the Board of Directors on 15 December 2021 and the Shareholders on 15 December 2021, the face value of the equity shares was sub-divided from ₹. 10 per equity share to ₹ 1 per equity share. Accordingly, the issued, subscribed and paid-up equity share capital of the Company being 9,525,000 equity shares of ₹ 10 each was sub-divided into 95,250,000 equity shares for ₹ 1 each. The number of shares to be used in the Basic EPS and Diluted EPS calculation in respect of the period presented above have been accordingly adjusted to give retrospective effect to the share split.

B. Fair Value Hierarchy

The fair value of financial instruments as referred to in note (A) above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market;

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

For assets and liabilities which are measured at fair value as at Balance Sheet date, the classification of fair value calculations by category is summarised below:

Particulars	Level 1	Level 2	Level 3	Total
As at 31 March 2026				
Financial assets/liabilities measured at fair value				
Investments in mutual funds	1,026.96	-	-	1,026.96
Financial Liabilities (Compulsorily convertible preference shares)	-	-	5,046.47	5,046.47
As at 31 March 2025				
Financial assets/liabilities measured at fair value				
Investments in mutual funds	831.95	-	-	831.95
Financial Liabilities (Compulsorily convertible preference shares)	-	-	5,046.47	5,046.47

There have been no transfers between Level 1 and Level 2 during the reporting years.

Calculation of Fair Values

The fair values of the financial assets and liabilities are defined as the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent with those used for the year ended 31 March 2025.

Financial assets and liabilities measured at fair value as at Balance Sheet date:

The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

During the year ended 31 March 2023, the Company has issued 0.01% Cumulative Compulsory Convertible preference shares of ₹ 3 each (Series C CCPS) classified as financial liability. The Company has derived the fair value of CCPS with the help of independent valuer. The valuer has used discounted cash flow method to derive the value of the instruments. The Company used level III fair valuation model for fair valuation of CCPS.

B. Fair Value Hierarchy (Continued)

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 3 fair values for financial instruments measured at fair value in the standalone statement of financial position, as well as the significant unobservable inputs used.

Type	Valuation techniques	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Compulsory Convertible Preference Shares	For the purpose of determining fair value, the Company has used the Discounted cash flow technique. • Discounted cash flows technique (DCF): The valuation model considers the present value of expected cash flows, discounted using a risk-adjusted discount rate. The expected cashflows is determined by considering the forecast annual revenue and EBITDA.	• Discounted cash flow (DCF) : - Forecast annual revenue growth rate - Forecast Terminal revenue growth rate - Risk-adjusted discount rate - EBITDA Margin	The estimated fair value would increase (decrease) if: - the forecast annual revenue growth rate were higher (lower); - the terminal growth rate were higher (lower); - the risk adjusted discount rate were lower (higher). - the EBITDA margin were higher (lower)

Significant unobservable inputs used for Level III fair valuation are as follow:

	31-March-2026	31-March-2025
- Risk-adjusted discount rate	13.59%	18.24%
- Forecast Terminal revenue stable growth rate	5.00%	3.00%
- Forecast Terminal revenue high growth rate	15.00%	-
- Forecast annual revenue growth rate	7% to 15%	17% to 25%
- EBITDA Margin	6.70% to 12.10%	4.5% to 16.60%
- Method used	H Model	Gordens Model

Transfers between Levels in the fair value hierarchy

There have been no transfers between levels in the fair value hierarchy

Other financial assets and liabilities

Fair value of financial assets and liabilities measured at amortised cost (cash and cash equivalents, other bank balance, trade receivables, other financial assets, trade payables, borrowings, lease liabilities and other financial liabilities) is not materially different from the amortised cost. Further, impact of time value of money is not significant for the financial instruments classified as current. Accordingly, the fair value has not been disclosed separately.

C. Financial risk management

The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risk and credit risk. The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

NOTE 35 : FINANCIAL INSTRUMENTS FAIR VALUE AND RISK MEASUREMENTS (CONTINUED)

(i) Management of Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are proposed to be settled by delivering cash or other financial asset. The Company's financial planning has ensured, as far as possible, that there is sufficient liquidity to meet the liabilities whenever due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital lines from various banks. The Company also monitors the level of expected cash inflows on trade receivables together with expected cash outflows on trade payables. The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short-term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

Note:

For terms and conditions on series C CCPS refer note foot note (vi) to note 18

(ii) Management of Market Risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments.

The Company size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- currency risk
- price risk
- interest rate risk

Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The functional currency of the Company is Indian Rupees and its revenue is generated from operations in India. The Company does not enter into any derivative instruments for trading or speculative purposes. The Company's borrowings are all in Indian rupees.

Price risk

The Company is mainly exposed to the price risk due to its investment in debt mutual funds. The price risk arises due to uncertainties about the future market values of these investments. The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Company's portfolio of borrowings does not comprise of fixed rate loans.

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss except for series C CCPS classified as financial liabilities and the Company does not have any designated derivatives (interest rate swaps). Therefore, a change in interest rates at the reporting date would not affect profit or loss.

NOTE 35 : FINANCIAL INSTRUMENTS FAIR VALUE AND RISK MEASUREMENTS (CONTINUED)

C. Financial risk management (continued)

(iii) Management of Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or fail to pay amounts due causing financial loss to the Company. The potential activities where credit risks may arise include from cash and cash equivalents and security deposits and principally from credit exposures to customers relating to outstanding receivables. The maximum credit exposure associated with financial assets is equal to the carrying amount. Details of the credit risk specific to the company along with relevant mitigation procedures adopted have been enumerated below:

Trade receivables

The Company's exposure to credit risk is that the Company has major business dealings with few parties to whom sales are made on credit basis. The Company's majority customer base are e-commerce marketplace players. Since the sales are as per contract, the company's exposure to credit risk is influenced by the individual characteristics of each customer. However, the management also considers the factors that may influence the credit risk of it's customer base including the default risk associated with the industry. Customers with whom legal dispute is going on are considered as credit impaired.

The Company has considered an assessment of past history and has taken into account various factors including future forecast conditions for determination of allowance for expected credit loss.

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 March 2026 and 31 March 2025.

NOTE 36 : CAPITAL MANAGEMENT

The Company defines capital as total equity including issued equity capital (equity and preference), share premium and all other equity reserves attributable to equity holders of the Company (which is the Company's net asset value). The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents. Adjusted equity comprises all components of equity.

The Company's adjusted net debt to equity ratio was as follows.

Particulars	As at 31 March 2026	As at 31 March 2025

NOTE 39 : EMPLOYEE BENEFIT PLANS (CONTINUED)

(iv) Assumptions

With the objective of presenting the plan obligations of the defined benefits plans at their fair value on the Balance Sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

Particulars	As at 31 March 2026	As at 31 March 2025
Financial Assumptions		
Discount rate (per annum)	6.75%	6.55%
Salary Escalation Rate (per annum)	7.00%	7.00%

The obligations are measured at the present value of estimated future cash flows by using a discount rate that is determined with reference to the market yields at the Balance Sheet date on Government Bonds, which is consistent with the estimated terms of the obligation.

The estimates of future salary increases, considered in actuarial valuation, takes into account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Particulars	As at 31 March 2026	As at 31 March 2025
Demographic Assumptions		
Age		
Withdrawal Rate		
25 and below	24.00%	24.00%
25 to 35	24.00%	24.00%
35 to 45	24.00%	24.00%
45 to 55	24.00%	24.00%
55 and above	24.00%	24.00%

Mortality Rate	Indian Assured Lives Mortality (2012-14)	Indian Assured Lives Mortality (2012-14)
----------------	--	---

(v) Sensitivity Analysis

The sensitivity of the overall plan obligations to changes in the weighted key assumptions are:

Particulars	As at 31 March 2026	As at 31 March 2025
Discount rate (per annum)		
Increase of 0.5%	(36.99)	(24.65)
Decrease of 0.5%	38.59	25.80
Salary escalation rate (per annum)		
Increase of 0.5%	38.42	25.68
Decrease of 0.5%	(37.10)	(24.77)
Withdrawal Rate		
Increase of 0.1%	(36.65)	(24.20)
Decrease of 0.1%	38.88	26.23

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the year and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the Balance Sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous years.

(vi) Weighted average duration of the defined benefit plan:

Particulars	As at 31 March 2026	As at 31 March 2025
Gratuity plan	4.09	4.11

* Granted during the previous year includes additional options granted upon issuance of bonus shares to existing shareholders and share split from ₹ 10 each to ₹ 1 each (refer note 16(f))

Particulars	Year ended 31 March 2026	Year ended 31 March 2025
Weighted average equity share price at the date of exercise of options during the year	-	352.55
Weighted average remaining contractual life of options (years) as at the end of the year	5.82	7.21

The value of the underlying shares has been determined by an independent valuer. The following assumptions were used for calculation of fair value of grants in accordance with Black Scholes model:

Particulars	Year ended 31 March 2026	Year ended 31 March 2025
Risk-free interest rate (%)	6.34% to 6.66%	6.62% to 7.20%
Expected life of options (years) [(year to vesting) + (contractual option term)/2]	4.5 to 7.5 years	4.5 to 7.5 years
Expected volatility (%)	43.46% to 44.54%	41.92% to 45.77%
Dividend yield	0.00%	0.00%

The risk free interest rates are determined based on the zero-coupon sovereign bond yields with maturity equal to the expected term of the option. Volatility calculation is based on historical stock prices using standard deviation of daily change in stock price. The historical period is taken into account to match the expected life of the option. Dividend yield has been calculated taking into account expected rate of dividend on equity share price as on grant date.

Particulars	Year ended 31 March 2026	Year ended 31 March 2025
Equity settled share based payments	103.58	86.04
Total expense recognized under "Employee benefits expense"	103.58	86.04

Definitions:

- Earning for available for debt service = Net Profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc.
- Debt service = Interest & Lease Payments + Principal Repayments
- Average inventory = (Opening inventory balance + Closing inventory balance) / 2
- Average trade receivables = (Opening trade receivables balance + Closing trade receivables balance) / 2
- Average trade payables = (Opening trade payables balance + Closing trade payables balance) / 2
- Working capital = Current assets - Current liabilities.
- Earning before interest and taxes = Profit before tax + Interest expense
- Capital Employed = Tangible Net Worth + Total Debt + Deferred Tax Liability
- Total Debt - Total debt is calculated including the financial liability in relation to CCPS issued during the year which is classified as financial liability as per Ind AS.

B. Explanation for change in the ratio by more than 25%:

	Particulars		% variance	
			31 March 2026	vs 31 March 2025
(i)	Debt-equity ratio	Decrease is mainly on account of profit during the year and decrease in borrowings		
(ii)	Debt service coverage ratio	Decrease is mainly on account of reduction in borrowings at overall level		
(iii)	Return on capital employed	Increase is mainly on account of profit during the year as compared to previous year		
(iv)	Return on equity ratio (in %)	Increase is mainly on account of profit during the year		
(v)	Net capital turnover ratio (in times)	Decrease is mainly on account of reduction in overall revenue from operations and increase in working capital as compared to previous year		
(vi)	Net profit ratio (in %)	Increase is mainly on account of profit during the year

Independent Auditor's Report

To the Members of Imagine Marketing Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Imagine Marketing Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its joint venture, which comprise the consolidated balance sheet as at 31 March 2026, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of such subsidiaries and joint venture as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and joint venture as at 31 March 2026, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and joint venture in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the "Other Matter" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 51 of the Consolidated Financial Statements which more fully explains the effect of the prior period errors pertaining to measurement of certain assets in the Consolidated Financial Statements for the year ended 31 March 2025 and 31 March 2024. As explained in the said note, management has restated the carrying values of those assets and equity as at 31 March 2025 and 31 March 2024 in accordance with the requirements of applicable Ind ASs.

Our opinion is not modified in respect of this matter.

Management's and Board of Directors Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive

income, consolidated statement of changes in equity and consolidated cash flows of the Group including its joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the Companies included in the Group and its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and its joint venture are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and the respective Board of Directors its joint venture are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.

Independent Auditor's Report (Continued)

Imagine Marketing Limited

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities within the Group and its joint venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matter" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

We did not audit the financial statements of four subsidiaries, whose financial statements reflect total assets (before consolidation adjustments) of Rs. 3,749.67 million as at 31 March 2026, total revenues (before consolidation adjustments) of Rs. 486.66 million and net cash outflows (before consolidation adjustments) amounting to Rs. 20.65 million for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit (and other comprehensive income) of Rs. 119.27 million for the year ended 31 March 2026, in respect of one joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and joint venture is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries and joint venture as were audited by other auditors, as noted in the "Other Matter" paragraph, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid

consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except for the matters stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

- c. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors of the Holding Company as on 01 April 2026 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary and joint venture incorporated in India, none of the directors of the Group and its joint venture incorporated in India is disqualified as on 31 March 2026 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. the modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(A)(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies and joint venture company incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries and joint venture, as noted in the "Other Matter" paragraph:
- a. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2026 on the consolidated financial position of the Group and its joint venture. Refer Note 33 to the consolidated financial statements.
 - b. The Group and its joint venture did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2026.
 - c. There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies, and joint venture company incorporated in India during the year ended 31 March 2026.
 - d (i) The respective management of the Holding Company and its subsidiary companies and joint venture company incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies and joint venture company respectively that, to the best of their knowledge and belief, as disclosed in the Note 49 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiary company and joint venture company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiary company and joint venture company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (ii) The respective management of the Holding Company and its subsidiary companies and joint

venture company incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies and joint venture company respectively that, to the best of their knowledge and belief, as disclosed in the Note 49 to the consolidated financial statements, no funds have been received by the Holding Company or any of such subsidiary company and joint venture company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiary company and joint venture company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiary companies and joint venture company incorporated in India whose financial statements have been audited under the Act, nothing has come to our or the other auditors notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.
- e. The interim dividend declared and paid by the joint venture company incorporated in India during the year is in accordance with Section 123 of the Act. The Holding Company and its subsidiary companies incorporated in India have neither declared nor paid any dividend during the year.
- f. Based on our examination which included test checks and that performed by the respective auditors of the subsidiary companies and joint venture company incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Holding Company and its subsidiary companies and joint venture company have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares:
 - In respect of the Holding Company, the feature of recording audit trail (edit log) was not enabled at the application level for the accounting software related to the general ledger for certain changes made by a user having privileged access rights. Further, the feature of recording the audit trail (edit log) facility was not enabled at the database level to log any direct data changes. Based on independent auditor's report in relation to controls at a service organisation, for an accounting software used for maintaining inventory records, which is operated by a third party software service provider, the feature of recording audit trail was not enabled from 1 April 2025 to 27 June 2025.
 - In respect of two subsidiary companies, the feature of recording audit trail (edit log) was not enabled at the application level for the accounting software related to the general ledger for certain changes made by a user having privileged access rights. Further, the feature of recording the audit trail (edit log) facility was not enabled at the database level to log any direct data changes.

Further, where audit trail (edit log) facility was enabled and operated throughout the year, we and respective auditors of such subsidiary company and joint venture company did not come across any instance of audit trail feature being tampered with. Additionally, except where audit trail (edit log) facility was not enabled in the previous year, the audit trail has been preserved by the Holding Company, subsidiary companies and joint venture company as per the statutory requirements for record retention.

Imagine Marketing Limited

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act

In our opinion and according to the information and explanations given to us and based on the report of the statutory auditor of such subsidiary companies incorporated in India which was not audited by us, the remuneration paid during the current year by the Holding Company and its subsidiary companies to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company and its subsidiary company is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us. Further, based on the report of the statutory auditor of joint venture company incorporated in India which was not audited by us, the Company being a private company, Section 197 of the Act related to the managerial remuneration is not applicable.

Annexure B to the Independent Auditor's Report on the consolidated financial statements of Imagine Marketing Limited for the year ended 31 March 2026

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Imagine Marketing Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2026, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary company and joint venture company, as of that date.

In our opinion and based on the consideration of reports of the other auditors on internal financial controls with reference to financial statements of subsidiary company and joint venture company as were audited by the other auditors, the Holding Company and such companies incorporated in India which are its subsidiary company and joint venture company, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary company and joint venture company in terms of their reports referred to in the

**Annexure B to the Independent Auditor's Report on the consolidated financial statements of Imagine Marketing Limited for the year ended 31 March 2026
(Continued)**

Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to one subsidiary company and one joint venture company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of above matter.

These Consolidated Financial Statements have been prepared on a going concern basis.

B. Basis of measurement

These Consolidated Financial Statements have been prepared on a historical cost convention on the accrual basis, except for the following measured at fair value:

- i. Employee's defined benefit plan at present value of defined benefit obligation (unfunded) determined as per actuarial valuation;
- ii. Certain financial assets and liabilities that are qualified to be measured at fair value;
- iii. Share based payments at fair value of the options on the date of the grant; and
- iv. Assets and liabilities arising in a business combination.

C. Functional currency and presentation

The Consolidated Financial Statements has been presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions and decimals thereof, unless otherwise mentioned.

D. Use of Judgements, assumptions and estimates

The preparation of Consolidated Financial Statements is in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent liabilities as on the date of Balance Sheet and the reported amount of income and expenses for the period reporting period. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. They are based on historical experience and other factors that are believed to be reasonable under the circumstance. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected.

Estimation uncertainties:

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the amounts recognised in the Consolidated Financial Statements is included in the following notes:

E. Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

F. Fair value measurement

Certain accounting policies and disclosures of the Group require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

2. MATERIAL ACCOUNTING POLICIES

2.2 Principles of consolidation

A. Subsidiaries

The Consolidated financial statements comprise the financial statements of the Group and its subsidiaries, associate and joint venture as at 31 March 2026. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Consolidated Financial Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the Consolidated Financial Statements to ensure conformity with the Group's accounting policies. The Holding Company has evaluated the accounting policies of foreign subsidiaries at the time of consolidation and GAAP differences, if any, were appropriately considered in the Consolidated Financial Statements.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Holding Company i.e. for the period ended 31 March 2026. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the Consolidated Financial Statements of the Group to enable the Holding Company to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Holding Company with those of its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the Consolidated Financial Statements at the acquisition date.
- Offset (eliminate) the carrying amount of the Holding Company's investment in each subsidiary and the Holding Company's portion of equity of each subsidiary.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the Consolidated Financial Statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

B. Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

C. Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in loss of control as transactions with equity owners of the Group. For purchases from non-controlling interests, the difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity. The share of non-controlling interest is restricted to the extent of contractual obligation of the Group.

When the Group ceases to consolidate or equity account for an investment because of loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognised in the Consolidated statement of profit and loss. This fair value becomes the initial carrying amount for the purpose of subsequently accounting for the retained interest in joint venture or financial asset.

D. Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

E. Equity accounted investees

The Group's interests in equity accounted investees comprise interests in subsidiaries, associate and joint venture.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

The Group has applied judgement in evaluating the terms of the investment made in compulsorily convertible preference shares (CCPS). The Group has assessed that the CCPS will be converted to equity shared based on the terms and conditions of the agreement and in commercial substance the investment is akin to the investment in the equity shares of the associate. Group has made this assessment based on the exposure to both the investees profits and losses as well as by the exposure to changes in the fair value of the investee's net assets if any.

A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associate and joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the Consolidated Financial Statements include the Group's share of profit or loss and OCI of equity accounted investees until the date on which significant influence ceases.

Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

F. Business combination (other than common control business combination) and Goodwill

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued, and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees and other professional and consulting fees are expensed as incurred.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

A cash generating unit to which goodwill has been allocated is tested for impairment at each reporting period as presented, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in Consolidated statement of profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

2.3 Summary of material accounting policies

A. Revenue Recognition

Revenue from sale of goods is recognised when goods are delivered and have been accepted by our customers and it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognized.

Sale of products:

The Group recognises revenue at a point in time when the performance obligation is satisfied of the goods underlying the particular performance obligation are transferred to the customer. Customers obtain control of the goods when the goods are delivered at the agreed point of delivery which generally is the premises of the customer.

Further, revenue from sale of goods is recognised based on a 5-Step Methodology in accordance with IND AS 115:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts & schemes offered by the Holding Company as part of the contract. Accumulated expenses is used to estimate the provision for discount.

Contracts are subject to modification to account for changes in contract specification and requirements. The Group reviews modifications to contracts in conjunction with the original contract to determine whether the transaction price should be allocated to a new performance obligation, or if the transaction price of an existing performance obligation should be changed. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

MEIS (Merchandise Exports from India Scheme) Income: The Holding Company records MEIS income as and when the scrips are utilised. The Holding Company follows point in time approach for recording of MEIS income.

Variable consideration:

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Right of return:

The Group provides a customer with a right to return in case of any defects or on grounds of quality. The Group uses the expected value method to estimate the goods that will be returned. For goods that are expected to be returned, instead of revenue, the Group recognizes a refund liability. A right to receive inventory on provision for sales return and corresponding adjustment to change in inventory is also recognized for the right to recover products from a customer.

Contract balances:

Contract assets: The Group classifies its right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon the passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset where the right to consideration is unconditional upon passage of time. Trade receivables is presented net of impairment.

Contract liabilities: A contract liability (which we referred to as Unearned Revenue) is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration due to the customer) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is received.

Trade receivables: A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets for guidance on recognition and measurement.

B. Recognition of dividend income, interest income or expense

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Dividend income is recognised in the Consolidated statement of profit and loss on the date on which the Group's right to receive payment is established.

C. Property, Plant and Equipment

Recognition and measurement:

The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably and is measured at cost. Subsequent to recognition, all items of property, plant and equipment (except for freehold land) are stated at cost less accumulated depreciation and accumulated impairment losses.

If the cost of an individual part of property, plant and equipment is significant relative to the total cost of the item, the individual part is accounted for and depreciated separately.

The cost of property, plant and equipment comprises its purchase price plus any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of decommissioning, restoration and similar liabilities, if any. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the subsequent expenditure can be measured reliably.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Items such as spare parts, stand-by equipment and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life. Cost of repairs and maintenance are recognised in the Consolidated statement of profit and loss as and when incurred.

Depreciation and useful lives - Indian Entities:

Depreciable amount for assets is the cost of asset less its estimated residual value. Depreciation on Property, Plant and Equipment is calculated on the depreciable amount using the straight-line method (SLM) using the rates arrived at based on the useful lives estimated by the management as prescribed in Schedule II of the Companies Act, 2013 except for Plant and Equipment where the management has derived useful life based on the technical evaluation. Depreciation is generally recognized in the statement of profit and loss.

Block	Useful Life	Useful life as per Act
Plant and Equipment	5 years	15 years
Furniture and fixtures	10 years	10 years
Office equipment	5 years	5 years
Computers	3 years	3 years
Leasehold Improvement	Lower of useful life of the leasehold improvement or the lease term	

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of). An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Based on the technical evaluation and consequent assessment, the management believes that its estimate of useful life as given above best represents the period over which the management expects to use these assets. Estimates in respect of method of depreciation were revised from written down value method to straight line method during the period ended 31 March 2023.

Depreciation and useful lives - International Entities:

Depreciation is based on the cost of an asset less its residual value. Depreciation is recognised in profit or loss and calculated using the straight-line method to allocate depreciable amounts over their estimated useful lives of each component of an item of plant and equipment. The estimated useful lives for the current and comparative periods are as follows:

Tangible Asset	Useful Life
Furniture and fixtures	3 years
Office equipment	1 year
Computers	1 year
Renovation	5 years

Derecognition:

An item of property, plant and equipment and any significant part initially recognized is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Consolidated statement of profit and loss when the asset is derecognised.

D. Intangible Assets

Recognition and measurement:

Intangible assets comprise primarily of brands, software, patents and trademarks. Intangible assets are initially recorded at cost and subsequent to recognition, intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates, and the cost can be measured reliably. All other expenditure are recognised in the statement of profit and loss as incurred. On adoption of Ind AS, the Group retained the carrying value for all of its intangible assets as recognised in the Consolidated Financial Statements as at the date of transition to Ind ASs, measured as per the previous GAAP and used that as its deemed cost as permitted by Ind AS 101 'First-time Adoption of Indian Accounting Standards.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Intangible Assets under Development:

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation:

Amortisation is calculated to write off the cost of intangible assets over their estimated useful lives using the straight-line method and is included in the Depreciation and Amortisation expense in the Statement of profit and loss. The useful lives of intangible assets that is considered for amortization of intangible assets are as follows:

Intangible Asset	Useful Life
Brands	10 years
Software	3 to 5 years
Patents and Trademarks	4 to 10 years

The amortisation period and the amortisation method for an intangible asset with finite useful life is reviewed at the end of each financial period. If any of these expectations differ from previous estimates, such changes is accounted for as a change in an accounting estimate.

Derecognition:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Consolidated statement of profit and loss when the asset is derecognised.

E. Impairment

Non-financial assets:

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit (CGU). If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the Consolidated statement of Profit and Loss.

Recoverable amount is the higher of an asset's or cash generating unit's value in use and its fair value less cost of disposal. Value in use is estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used.

An impairment loss is reversed in the Consolidated statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognised for the asset in prior periods.

Financial assets:

The Group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Group recognises loss allowances using the expected credit loss (ECL) model as per Ind AS 109 for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit or loss.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

The Group considers a financial asset to be in default when:

- the counter party is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset in respect of trade receivables is 365 days or more past due and for trade receivables less than 365 days, the Group identifies on case-to-case basis whether there is a risk of default.

ECL are measured in a manner that they reflect unbiased, and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group expects no significant recovery from the amount written off during the period.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 365 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for security because of financial difficulties.

F. Inventories

Inventories are valued at the lower of cost or net realisable value. Cost of inventories comprises purchase price, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In determining the cost, weighted average cost is used. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs to sell. The comparison of cost and net realisable value is made on an item-by-item basis.

Inventories are stated net of write down or allowances on account of obsolescence, damage or slow-moving items. The provision for inventory obsolescence is assessed periodically and is provided as considered necessary.

The Group imports the raw material and sells the same to the manufacturers in India. The cost of raw materials purchased and sold are netted off against the purchase of finished goods from the manufacturer since the cost of finished goods purchased from those manufacturers are inclusive of the cost of raw material transferred to them.

G. Financial Instruments

Financial assets

Recognition and initial measurement:

All financial assets and liabilities are initially recognized when the Group becomes a party to contractual provisions of the instrument. A financial asset or liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction cost that are directly attributable to its acquisition or issue. However, trade receivable that do not contain significant financing component are recognised at transaction price. For regular way purchases of financial assets, the Company follows the trade date accounting method, whereby a financial asset is recognized on the trade date—the date on which the Company commits to purchase the asset.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Classification and subsequent measurement:

On initial recognition, a financial instrument is classified and measured at

- Amortised cost
- Fair value through other comprehensive income (FVOCI) - debt instruments.
- Fair value through other comprehensive income (FVOCI) - equity investments; or
- Fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal amounts outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collect contractual cash flows and selling financial assets; and
- The contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal amounts outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI - equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes Mutual Funds as well as derivative assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Derivative financial instruments and hedge accounting:

The Group holds derivative financial instruments to hedge its foreign currency exposures. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

Subsequent measurement and gains and losses:

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income are recognized in profit or loss.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

Debt investments at FVTOCI - These assets are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVTOCI - These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are not reclassified to profit or loss.

Derecognition of financial assets:

A financial asset is derecognized only when:

- The Group has transferred the rights to receive cash flows from financial asset or

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

- Retains the contractual rights to receive the cash flows from financial asset but assumed a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the Group has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized. Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset. For regular way sales of financial assets, the Company applies trade date accounting, whereby the asset is derecognized on the trade date, i.e., the date on which the Company commits to sell the asset.

Investment in Subsidiaries, Associate and Joint Ventures:

The investments in subsidiaries, associate and joint ventures are carried in the financial statements at historical cost except when the investment, or a portion thereof, is classified as held for sale, in which case measured at lower of carrying amount and fair value less costs to sell. When the Group is committed to a sale plan involving disposal of an investment, or a portion of an investment, in any subsidiary or joint venture, the investment or the portion of the investment that will be disposed of is classified as held for sale when the criteria described above are met. Any retained portion of an investment in a subsidiary or a joint venture that has not been classified as held for sale continues to be accounted for at historical cost. Investments in subsidiaries and joint ventures carried at cost are tested for impairment in accordance with Ind AS 36 Impairment of Assets. The carrying amount of the investment is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount, any impairment loss recognised reduces the carrying amount of the investment.

Financial liability

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or amortised cost. All financial liabilities are recognized initially at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separate embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to the Consolidated statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Consolidated statement of profit or loss. The Group has not designated any financial liability as at fair value through profit or loss other than series C CCPS which is classified as financial liability designated as FVTPL (Refer note 18).

(All amounts are in ₹ million, unless otherwise stated)

Amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Consolidated statement of profit and loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated statement of profit or loss.

Offsetting:

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

H. Cash and cash equivalents

Cash and cash equivalent includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value, and bank overdrafts.

Statement of Cash Flows:

Cash flows are reported using the indirect method, whereby net profit before taxes for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated. Bank overdrafts and cash credits which are repayable on demand form an integral part of Group's cash management and are included as a component of cash and cash equivalents.

I. Foreign Currency transactions and translations

Foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign currency denominated monetary assets and liabilities are translated into relevant functional currency at exchange rates in effect at the balance sheet date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period end exchange rates are generally recognized in Consolidated statement of profit and loss. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss and are generally recognised in Consolidated statement of profit and loss, except exchange differences arising from the translation of the following items which are recognised in OCI:

- equity investments at fair value through OCI (FVOCI)
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

(All amounts are in ₹ million, unless otherwise stated)

Translation of financial statements of foreign operations:

Assets and liabilities of foreign entities are translated into Indian Rupees on the basis of the closing exchange rates as at the end of the period. Income and expenditure and cash flow are generally translated using average exchange rates for the period unless those rates do not approximate the actual exchange rates at the dates of specific transactions, in which case the exchange rates as at the dates of transaction are used. All resulting exchange differences are recognised in Other Comprehensive Income. On consolidation, exchange differences arising from the translation of any net investment in foreign entities are recognised in Other Comprehensive Income. When a foreign operation is sold, the associated exchange differences are reclassified to the Consolidated Statement of Profit and Loss, as a part of gain or loss on sale.

J. Employee Benefits

Defined Contribution Plan:

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified contributions towards Government administered provident fund scheme, labour welfare fund and employees' state insurance scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Defined Benefit Plan:

The Group's gratuity plan is a defined benefit plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

All remeasurement gains and losses arising from defined benefit plans are recognised in the Consolidated statement of other comprehensive income in the period in which they occur and not reclassified to the Consolidated statement of profit and loss in the subsequent period. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense related to defined benefit plans are recognised under "Finance costs" in the Consolidated statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the Consolidated statement of profit and loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs in the Consolidated statement of profit and loss.

Short-term employee benefits:

All employee benefits falling due wholly within twelve months of rendering the services are classified as short term employee benefits, which include benefits like salaries, wages and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

Short term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g. short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the amount of obligation can be estimated reliably.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

In one of the Subsidiary Company, employee entitled annual leave are recognized when they accrue to the employees. A provision is made for the estimated undiscounted liability for annual leave expected to be settled wholly within 1 month after the end of reporting period as a result of services rendered by employees up to the end of the reporting period.

Other long-term employee benefits:

The Group's net obligation in respect of long-term employment benefits, other than gratuity, is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated at the balance sheet date on the basis of an actuarial valuation done by an independent actuary using the projected unit credit method and is discounted to its present value and the fair value of any related assets is deducted. Remeasurements gains or losses are recognised in the Consolidated statement of profit and loss in the period in which they arise.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date. The discount rates used for determining the present value of the obligation under long term employment benefits, are based on the market yields on Government securities as at the balance sheet date.

Equity settled share-based payments:

Employees of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Consolidated Statement of Profit and Loss. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

K. Borrowing Costs

Borrowing costs include:

- interest expense calculated using the effective interest rate method;
- finance charges in respect of leases;
- interest expenses on bill discounting; and
- exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the Consolidated statement of profit and loss in the period in which they are incurred.

L. Share issue expenses

Incremental costs directly attributable to the issue of new equity shares are adjusted with securities premium, and those attributable to offer for sale are shown as recoverable from the selling shareholders.

M. Leases

The Group assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset
- the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- the Group has the right to direct the use of the asset.

The group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

Right-of-use assets:

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liability:

At the commencement date of the lease, the group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the group uses its incremental borrowing rate at the lease commencement date when the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets:

The Group has applied the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) and low-value assets recognition exemption.

N. Income Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income. The Group has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

Current tax:

Current tax expenses comprise the expected tax payable or receivable on the taxable income or loss for the period and any adjustment to the tax payable or receivable in respect of previous periods. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction.
- temporary differences related to investments in subsidiaries, associate and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

The group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relations to its right-to-use assets.

O. Provisions, Contingent liabilities and Contingent assets

General provision:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Consolidated statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities:

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured

Imagine Marketing Limited

Notes to the Consolidated Financial Statement for the year ended 31 March 2026

(All amounts are in ₹ million, unless otherwise stated)

reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Contingent assets:

Contingent assets are neither recognised nor disclosed in the Consolidated Financial Statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

P. Warranties

The Holding Company recognises provision for warranties in respect of the products that it sells. These are reviewed at each balance sheet date and adjusted to reflect the current estimates. A provision is recognised for expected warranty claims on products sold during the period based on the past trend for actual warranty claims.

Q. Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to the owners of the Group for the period by the weighted average number of equity shares outstanding during the reporting period (including instruments entirely equity in nature). The diluted earnings per share is computed by dividing the profit attributable to equity holders (after adjusting the cost recognised during the period for convertible instruments) by the weighted average number of equity shares outstanding during the period plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

R. Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Director who is designated the chief operating decision maker (CODM). The Group has identified reportable segments based on the dominant source, nature of risks and return and the internal organisation and management structure and for which discrete financial information is available. The CODM monitors the operating results of the entity at segment level for the purpose of making decisions about resource allocation and performance assessment. An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available.

Revenue and expenses directly attributable to segments are reported under each reportable segment. Other expenses which are not attributable or allocable to segments are disclosed separately. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the Consolidated Financial Statements. However, the Group's financing (including finance costs and finance income) and income taxes are managed on a Group basis and are not allocated to operating segments. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as unallocable assets and liabilities.

2.4 Recent accounting developments and pronouncements

Ministry of Corporate affairs ("MCA") notifies new standards or amendments to the existing standards under new Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2026, MCA has notified amendment to the existing standards applicable to the Group which are not yet effected.

Ind AS 1 – Presentation of Financial Statements - If a covenant breach occurs on or before the reporting date and the liability becomes payable on demand, it must be classified as current, even if the lender subsequently agrees not to demand repayment. It is classified as current because, at the reporting date, the entity does not have the right to defer settlement for at least 12 months. However, if the lender has already provided—by the reporting date—a grace period extending at least 12 months beyond that date, during which the breach can be rectified and repayment cannot be demanded, the liability is classified as non-current.

This amendment is to be applied retrospectively for annual reporting periods beginning on or after 1 April 2026, in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

The Ministry of Corporate Affairs has vide notification dated 07 May 2025 and 13 August 2025 , notified Companies (Indian Accounting Standards) Amendment Rules, 2025 which amends certain accounting standards, and are effective 1 April 2025. Below is the recent change to the Accounting Standards that are required to be applied by an entity with an annual reporting period beginning on 1 April 2025.

Ind AS 107 – Financial Instruments: Disclosures and Ind AS 7 – Statement of Cash Flows

New disclosure requirements apply to supplier finance arrangements where:

- A finance provider pays suppliers on behalf of the company.
- The company pays on the same or a later date.
- The company receives extended terms or suppliers receive early-payment benefits.

Required disclosures include:

- a. Terms and conditions of the arrangements.
 - b. At beginning and end of the reporting period:
 - i. Carrying amounts and balance-sheet line items of liabilities under these arrangements.
 - ii. Liabilities already paid to suppliers by finance providers.
 - iii. Payment-due-date ranges for these liabilities and comparable trade payables.
 - c. Type and effect of non-cash changes (e.g., exchange differences, business combinations).
- Entities must also disclose the type and effect of non-cash changes in the carrying amounts of the financial liabilities that are part of a supplier finance arrangement.
 - Supplier finance arrangements are now explicitly included in Ind AS 107 as examples for quantitative liquidity risk disclosures.

* Restated (Refer Note 51)

Note:

- The Group has not revalued its intangible assets in the current period.
- The KaHa Group (refer note 41A & 41B) has been identified as a single Cash-Generating Unit (CGU) for the purpose of goodwill allocation.

The Goodwill of ₹ 1,783.84 million arose during the year ended 31 March 2022 pursuant to the acquisition of the KaHa Group (refer note 41). The Group has performed an impairment testing of goodwill which is required to be performed annually. As part of the impairment test, the recoverable amount is determined based on value-in-use calculations, estimated as the present value of projected future cash flows, which require the use of assumptions.

Key assumptions used in calculating the discounted cash flows

Particulars	Singapore Operations	
	31 March 2026	31 March 2025
Discount rate	11.61%	12.08%
Average annual revenue growth rates	12.50 - 15.00%	15%-31%
Long - Term sustainable growth rates	3.00%	3.00%
Operating margins	42%-74%	9% to 48%

The discount rate was a post-tax measure estimated based on the historical industry average weighted-average cost of capital.

The cash flow projections for the CGU included specific estimates for 5 years and a terminal growth rate thereafter. The terminal growth rate was determined based on management's estimate of the long-term compounded annual EBITDA growth rate.

Financial forecasts was prepared taking into account past experience and the Group's future business plans.

Management has identified that a reasonably possible change in two key assumptions could cause the carrying amount to exceed the recoverable amount. The following table shows the amount by which these two assumptions would need to change individually for the estimated recoverable amount to be equal to the carrying amount.

Particulars	Singapore Operations - Change required for carrying amount to equal recoverable amount	
	31 March 2026	31 March 2025
Discount rate	2.00%	2.00%
Long - Term sustainable growth rates	-2.00%	-2.00%

* Right to receive inventory on provision for sales return: Customers of the Holding Company have right to return in case of any defects or on grounds of quality. The Holding Company uses expected value method to estimate the goods that will be returned. For goods that are expected to be returned, instead of revenue proceeds, the Holding Company recognises a refund liability.

(i) There are no advances in the nature of loans to promoters, directors, KMPs or related parties (as defined under Companies Act, 2013) either severally or jointly with any other person, that are:

- (a) repayable on demand; or
(b) without specifying any terms or period of repayment

Advance to Vendors as at 31 March, 2026 includes \$3.58 million (31 March 2025: \$2.5 million) advanced to foreign vendors for inventory, outstanding for more than six months due to non-receipt of materials or repatriation. This results in non-compliance with the Master Circulars issued by the Reserve Bank of India with respect to prescribed timelines for receipt of goods against the advances given or remittance of monies back into India. Out of the total outstanding advances mentioned above, the management has already written to its AD Banker for permission to write-off of \$ 1.9 million and is reasonably confident of obtaining the approval from the competent authorities and believes that the approval for an extension of time is only a procedural matter and any fees/penalties in relation to obtaining such a condonation will not be material.

The Company has created a provision of ₹ 18.80 million for the anticipated penalty in the Financial Statements, (included in “ Other Expenses”).

(b) **Rights, preferences and restrictions attached to equity shares:**

The Holding Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Holding Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Holding Company, the holders of equity shares will be entitled to receive the residual assets of the Holding Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held and after payment to the secured and unsecured loan.

(c) **Rights, preferences and restrictions attached to preference shares:**

The Holding Company has three classes of preference shares i.e. 0.01% Non-Cumulative Compulsory Convertible preference shares of ₹ 10 each ('Series A CCPS') and 0.01% Cumulative Compulsory Convertible preference shares of ₹ 6,000 each ('Series B CCPS'), 0.01% Cumulative Compulsory Convertible preference shares of ₹ 3 each ('Series C CCPS').

Series A CCPS comprises Series A CCPS and Series A1 CCPS, both convertible at a ratio of 1:1 (that is 1 Equity Share shall be issued upon conversion of 1 Preference Share), having a right to preferred non - cumulative dividend of 0.01% per annum and of the par value of Rs 10 each in the capital of the Holding Company. Each Preference Share may be converted into Equity Shares at any time at the option of the holder of that Preference Share and/or if mandated by applicable laws.

Subject to applicable Laws, the preference shares shall be automatically converted into equity shares in the ratio of 1 Equity Share for 1 Preference Share ('Conversion Ratio'), upon the earlier of (i) expiry of 19 years and 9 months from the Closing Date or (ii) in connection with an IPO, prior to the filing of a red hearing prospectus (or equivalent document, by whatever name called) by the Holding Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

Series B CCPS comprises Series B CCPS and Series B1 CCPS, both cumulative participating compulsorily and fully convertible preference shares having a face value of ₹ 6,000 each, convertible at a ratio of 1:2000 * (that is 2000 Equity Share shall be issued upon conversion of 1 Preference Share), having a right to preferred cumulative dividend of 0.01% per annum and of the par value of ₹ 6,000 each in the capital of the Holding Company. Each Preference Share may be converted into Equity Shares at any time at the option of the holder of that Preference Share and/or if mandated by applicable laws.

Subject to applicable Laws, the preference shares shall be automatically converted into equity shares in the ratio of 2000 Equity Share for 1 Preference Share ('Conversion Ratio'), upon the earlier of (i) expiry of 19 years and 9 months from the Closing Date; or (ii) in connection with an IPO, prior to the filing of a red-herring prospectus (or equivalent document, by whatever name called) by the Holding Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

As per the original terms of Series B CCPS, the conversion ratio was 1:1 (that is 1 Equity Share shall be issued upon conversion of 1 Preference Share). During the year ended 31 March 2022, pursuant to the Corporate Event being issuance of Bonus Equity Shares and Bonus Series A CCPS and the face value of the equity shares was sub-divided from ₹ 10 per Equity share to ₹ 1 per Equity share the Company adjusted the conversion price for Series B CCPS in accordance with their terms of issuance as set out in the articles of association and the amended shareholders agreement dated 9 April 2021 from ₹ 283,749 to ₹ 141.88. Accordingly, the revised conversion ratio is 1:2000.

(v) Terms of series C CCPS:

During the year ended 31 March 2023:

Pursuant to a Shareholders Agreement (SHA) dated 24 October 2022 entered into by and between Imagine Marketing Limited, Sameer Mehta (Promoter 1), Aman Gupta (Promoter 2), Fireside Ventures Investment Fund - I (Scheme of Fireside Ventures Investments Trust), South Lake Investments Ltd, Qualcomm Ventures LLC, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund and the Share Subscription Agreement (SSA) dated 24 October 2022 entered into by and between Imagine Marketing Limited, the Promoters, South Lake Investments Ltd, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund, the Holding Company issued 6,657,791 0.01% Cumulative Compulsorily Convertible preference shares of ₹ 3 each to South Lake Investments Ltd, Malabar India Fund Limited, Malabar Select Fund and Malabar Midcap Fund on December 2, 2022 on a private placement basis as per the provisions of Section 42 of the Companies Act, 2013. Consequent to such issue of shares, the Holding Company received ₹ 5,000 million the details of which are included in the table below:

Type of share	Amount in ₹ million
Carrying amount of liability as at April 01, 2024	5,039.95
Add: Fair value loss on account of changes in financial liabilities	6.52
Carrying amount of liability as at 31 March 2025	5,046.47
Add: Fair value loss on account of changes in financial liabilities	-
Carrying amount of liability as at 31 March 2026	5,046.47

Series C CCPS comprises cumulative compulsorily and fully convertible preference shares having a face value of ₹ 3 each, to be converted into such number of equity shares of face value of ₹ 1 each as per the adjustment ratio linked to next external funding round as mentioned in the shareholding agreement (SHA) dated October 24, 2022. Further, the Series C CCPS has a right to preferred cumulative dividend of 0.01% per annum and of the par value of Rs 3 each in the capital of the Holding Company.

Subject to applicable Laws, the preference shares shall be automatically converted as per the terms mentioned above, upon the earlier of (i) expiry of 19 years and 9 months from the of the issuance and allotment; or (ii) in connection with an IPO, prior to the filing of a red-herring prospectus (or equivalent document, by whatever name called) by the Holding Company with the competent authority or such later date as may be permitted under applicable law.

In the event of a liquidation, the holders of CCPS will have priority over equity shareholders in the payment of dividend and repayment of capital.

As per Ind AS 32 - Financial Instruments: Presentation, and terms and conditions mentioned in the SHA mentioned above, the Holding Company has classified the same as financial liability since it comprises an obligation on the Holding Company to deliver a variable number of shares on the basis of conversion ratio and price as defined in the SHA. Although the variability is subject to the adjustment ratio as mentioned in the SHA at the time of conversion, the overall number of equity instruments that the issuer is obliged to deliver is not fixed. Since the variability is limited by a cap and a floor, it features an embedded derivative and therefore is to be measured at fair value, with all changes in fair value recognised in profit or loss.

Supplier finance arrangements

The Group participates in a supplier finance arrangement under which its suppliers may elect to receive early payment of their invoices from a bank. Under the arrangement, the bank agrees to pay amounts due to participating suppliers in respect of invoices owed by the Group and the Group repays the bank at a later date. The principal purpose of this arrangement is to facilitate efficient payment processing and provide the willing suppliers early payment terms, compared with the related invoice payment due date.. The Group has not derecognised the original trade payables relating to the arrangement because neither a legal release was obtained nor was the original liability substantially modified on entering into the arrangement. From the Group's perspective, the arrangement does not significantly extend payment terms beyond the normal terms agreed with other suppliers that are not participating; however, the arrangement does provide participating suppliers with the benefit of early payment. Additionally, the Group does not incur any additional interest towards the bank on the amounts due to the suppliers. The Group therefore includes the amounts subject to the arrangement within trade payables because the nature and function of these payables remains the same as those of other trade payables.

All payables under the arrangement are classified as current as at 31 March 2026 and 2025.

Additional information about the Group's trade payables is provided in the table below.

B. Fair Value Hierarchy

The fair value of financial instruments as referred to in note (A) above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market;

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

For assets and liabilities which are measured at fair value as at Balance Sheet date, the classification of fair value calculations by category is summarised below:

Particulars	Level 1	Level 2	Level 3	Total
As at 31 March 2026				
Financial Assets/liabilities at fair value				
Investments in mutual funds	1,026.96	-	-	1,026.96
Financial liabilities in relation of CCPS	-	-	5,046.47	5,046.47
As at 31 March 2025				
Financial Assets/liabilities at fair value				
Investments in mutual funds	831.95	-	-	831.95
Financial Liabilities (Compulsorily convertible preference shares)	-	-	5,046.47	5,046.47

There have been no transfers between Level 1 and Level 2 during the reporting periods.

Calculation of Fair Values

The fair values of the financial assets and liabilities are defined as the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistently applied by the Group.

Financial assets and liabilities measured at fair value as at Balance Sheet date:

During the year ended 31 March 2023, the Holding Company had issued 0.01% Cumulative Compulsory Convertible preference shares of ₹ 3 each (Series C: CCPS) classified as financial liability. The Holding Company has derived the fair value of CCPS with the help of independent valuer. The valuer has used discounted cash flow method to derive the value of the instruments. The Holding Company used level III fair valuation model for fair valuation of CCPS.

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 3 fair values for financial instruments measured at fair value in the condensed statement of financial position, as well as the significant unobservable inputs used.

35 FINANCIAL INSTRUMENTS FAIR VALUE AND RISK MEASUREMENTS (CONTINUED)

B. Fair Value Hierarchy (continued)

Type	Valuation techniques	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value
Compulsory Convertible Preference Shares	For the purpose of determining fair value, the Holding Company has used the Discounted cash flow technique. • Discounted cash flows technique (DCF): The valuation model considers the present value of expected cash flows, discounted using a risk-adjusted discount rate. The expected cashflows is determined by considering the forecast annual revenue and EBITDA.	- Forecast annual revenue growth rate - Forecast Terminal revenue growth rate - Risk-adjusted discount rate - EBITDA Margin	The estimated fair value would increase (decrease) if: - the forecast annual revenue growth rate were higher (lower); - the terminal growth rate were higher (lower); - the risk adjusted discount rate were lower (higher). - the EBITDA margin were higher (lower)

Significant unobservable inputs used for Level III fair valuation are as follow:

	31-March-2026	31-March-2025
- Risk-adjusted discount rate	13.59%	18%
- Forecast Terminal revenue stable growth rate	5.00%	3%
- Forecast Terminal revenue high growth rate	15.00%	-
- Forecast annual revenue growth rate	7% to 15%	17% to 25%
- EBITDA Margin	6.70% to 12.10%	4.5% to 16.6%
- Method used	H Model	Gordens Model

Transfers between Levels in the fair value hierarchy

There have been no transfers between levels in the fair value hierarchy

The following tables shows a reconciliation from the opening balance to the closing balance for level 3 fair values.

Particulars	31-March-2026 Series C CCPS	31-March-2025 Series C CCPS

- EBITDA Margin	Impact of 1% increase Impact of 1% decrease	59.40 (58.62)	Loss (Gain)

Other financial assets and liabilities

Fair value of financial assets and liabilities measured at amortised cost (cash and cash equivalents, other bank balance, trade receivables, other financial assets, trade payables, borrowings, lease liabilities and other financial liabilities) is not materially different from the amortised cost. Further, impact of time value of money is not significant for the financial instruments classified as current. Accordingly, the fair value has not been disclosed separately.

35 FINANCIAL INSTRUMENTS FAIR VALUE AND RISK MEASUREMENTS (CONTINUED)

C. Financial risk management

The Group's business activities are exposed to a variety of financial risks, namely liquidity risk, market risk and credit risk. The Group's senior management has the overall responsibility for establishing and governing the Group's risk management framework. The Group has constituted a Risk Management Committee, which is responsible for developing and monitoring the Group's risk management policies. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Holding Company.

(i) Management of Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are proposed to be settled by delivering cash or other financial asset. The Group's financial planning has ensured, as far as possible, that there is sufficient liquidity to meet the liabilities whenever due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group has obtained fund and non-fund based working capital lines from various banks. The Group also monitors the level of expected cash inflows on trade receivables together with expected cash outflows on trade payables. The Group regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short-term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

Financing arrangement

The Holding Company had access to the following undrawn borrowing facilities at the end of the reporting year:

Particulars	As at 31 March 2026	As at 31 March 2025
Cash credit facilities (includes bank overdraft and working capital facilities)	5,160.00	6,659.27
Other financing arrangements (includes bill discounting, letter of credit, etc.)	-	1,000.00
	5,160.00	7,659.27

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest receipts / payments and exclude the impact of netting agreements.

Other financial liabilities	22	125.36	125.36	-	125.36

Note: For terms and conditions on series C CCPS refer note foot note (v) to note 18

(ii) Management of Market Risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments.

The Group size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Currency risk
- Price risk
- Interest rate risk

Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The functional currency of the Group is Indian Rupees and its revenue is generated from operations in India. The Group does not enter into any derivative instruments for trading or speculative purposes. The Group's borrowings are in INR and USD currency.

Transactional exposures arise from transactions in foreign currency. They are managed in a prudent and systematic manner in accordance with the Group's specific business needs.

35 FINANCIAL INSTRUMENTS FAIR VALUE AND RISK MEASUREMENTS (CONTINUED)

C. Financial risk management (continued)

Price risk

The Group is mainly exposed to the price risk due to its investment in debt mutual funds. The price risk arises due to uncertainties about the future market values of these investments. The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Holding Company's portfolio of borrowings comprise of variable rate loans which are monitored continuously in the light of market conditions. The group does not have any fixed rates loans.

The Holding Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss except for series C CCPS classified as financial liabilities and the Holding Company does not have any designated derivatives (interest rate swaps). Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(iii) Management of Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or fail to pay amounts due causing financial loss to the Group. The potential activities where credit risks may arise include from cash and cash equivalents and security deposits and principally from credit exposures to customers relating to outstanding receivables. The maximum credit exposure associated with financial assets is equal to the carrying amount. Details of the credit risk specific to the Group along with relevant mitigation procedures adopted have been enumerated below:

Trade receivables

The Group's exposure to credit risk is that the Group has major business dealings with few parties to whom sales are made on credit basis. The Group's majority customer base are e-commerce marketplace players. Since the sales are as per contract, the Group's exposure to credit risk is influenced by the individual characteristics of each customer. However, the management also considers the factors that may influence the credit risk of its customer base including the default risk associated with the industry. Customers with whom legal dispute is going on are considered as credit impaired.

The Group has considered an assessment of past history and has taken into account various factors including future forecast conditions for determination of allowance for expected credit loss.

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 March 2026.

31 March 2026	Weighted average loss rate	Gross carrying amount	Credit impaired
Not Due	0%	1,353.13	No

Refer to note 12 (iv) for ageing for trade receivables from the due date of payment.

The Group does not have any impaired trade receivable as on 31 March 2026 and 31 March 2025 except for those disclosed above.

Other financial assets

The Group maintains exposure in cash and cash equivalents, term deposits with banks and other financial assets (including loan to employees and security deposit). The Group has set counter-party limits based on multiple factors including financial position, credit rating, etc. The Group's maximum exposure to credit risk as at 31 March 2026 and 31 March 2025 is the carrying value of each class of financial assets.

36 CAPITAL MANAGEMENT

The Group defines capital as total equity including issued equity capital, share premium and all other equity reserves attributable to equity holders of the Group (which is the Group's net asset value). The Group manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Group is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The Group monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents. Adjusted equity comprises all components of equity.

The Group's adjusted net debt to equity ratio was as follows.

38 SEGMENT INFORMATION

Business Segments

The Executive Director of the Holding Company, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the CODM. The Group has determined following reporting segments based on the information reviewed by the Group's Chief Operating Decision Maker ('CODM'):

- (i) Audio includes wired earphone, wireless earphone, wired headphone, wireless headphone, wireless speakers and soundbar.
- (ii) Wearables include smart watches.
- (iii) Others includes charging solutions, cables, mens grooming kit and gaming equipments.

The above business segments have been identified considering:

- (i) the nature of products
- (ii) the differing risks and returns
- (iii) the internal organisation and management structure, and
- (iv) the internal financial reporting systems

Segment Results are arrived at based on segment revenues less direct and allocable cost associated with the segment.

(v) Sensitivity Analysis

The sensitivity of the overall plan obligations for Holding Company to changes in the weighted key assumptions are:

Particulars			As at 31 March 2026	As at 31 March 2025
Discount rate (per annum)	Increase	0.50%	(45.39)	(24.65)
	Decrease	0.50%	48.34	25.80
Salary escalation rate (per annum)	Increase	0.50%	47.67	25.68
	Decrease	0.50%	(45.88)	(24.77)
Withdrawal Rate	Increase	W.R. x 110%	(45.83)	(24.20)
	Decrease	W.R. x 90%	47.74	26.23

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the year and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the Balance Sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous years.

(vi) Weighted average duration of the defined benefit plan:

48 Sale of Investment

The Group signed a share purchase agreement between HOB Ventures Private Limited (holding company of Kimirica), promoters of Kimirica Lifestyle Private Limited and Kimirica Lifestyle Private Limited for transfer of the shares on 15 January 2025 for a consideration of ₹ 300 million. The sale of investment has resulted in gain of ₹ 86.02 million and the same is shown as "Exceptional items" in the Consolidated Financial Statements.

- 49 No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other persons or entities, including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Group (Ultimate Beneficiaries).

The Group has not received any fund from any party (Funding Party) with the understanding that the Group shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Group ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- 50 (i) Information with regards to other matters in the Companies Act, 2013 are either Nil or Not applicable to the Holding Company

- 50 (ii) During the previous year ended 31 March 2025, one of the subsidiaries of the Group had temporarily met the criteria prescribed under the Reserve Bank of India Act, 1934 and the applicable RBI guidelines relating to registration as a Non-Banking Financial Company ("NBFC"), primarily due to deployment of surplus funds in the form of Inter-Corporate Deposits ("ICDs") with the Holding Company and recognition of interest income thereon.

In this regard, the subsidiary company had made a voluntary application to the Reserve Bank of India ("RBI") on June 10, 2025, seeking exemption/condonation from NBFC registration requirement, considering that financing activities were not its principal business activity and the ICD transactions were temporary in nature.

Subsequent to the application, the Company received communication from RBI on 22 January 2026 granting exemption from registration as an NBFC based on the nature and principal business activities of the subsidiary company. Further, the ICD balances were repaid and no such financial activity continued during the year ended 31 March 2026.

Accordingly, management believes that the subsidiary company is in compliance with the applicable provisions of the RBI Act, 1934 and related guidelines, and no liability exists in this regard as at 31 March 2026.
