**ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF HOUSE OF KIERAYA LIMITED (FORMERLY KNOWN AS HOUSE OF KIERAYA PRIVATE LIMITED)**

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management and Board of Directors.

- Conclude on the appropriateness of the management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A Company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

#### Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to Holding Company. Section 143(3)(i) of the Act is not applicable to two subsidiaries, which are incorporated in India.

#### 1. Financial Instruments - Fair value measurement

##### a. The carrying value and fair value of financial instruments by categories are as below:

Other financial liabilities	119.09	-	129.92	-
<b>Total liabilities</b>	<b>324.33</b>	<b>-</b>	<b>256.61</b>	<b>-</b>

The fair value of investments, loans cash and bank balances, trade receivables, borrowings, lease liabilities, trade payables, other financial assets and liabilities approximate their carrying amounts and hence the same has not been disclosed in the table above. These fair values are computed using Level 3 inputs.

##### b. Measurement of fair values

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

- a) recognized and measured at fair value
- b) measured at amortized cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended March 31, 2025 and March 31, 2024.

Determination of fair values

Fair values of financial assets and liabilities have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The fair values of financial assets and financial liabilities are considered to be equivalent to their carrying values.

## Textual information (4)

### Disclosure of nature and extent of risks arising from financial instruments [Text Block]

#### Financial instruments - risk management

The Group has exposure to the following risks arising from financial instruments:

- (i) credit risk (refer note (b) below);
- (ii) liquidity risk (refer note (c) below);
- (iii) market risk (refer note (d) below).

#### a) Risk management framework

The Holding company's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Holding company's board oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

#### b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, loans and cash and cash equivalents. The carrying amount of financial assets represents the maximum credit exposure.

The Group has an established process to evaluate the creditworthiness of its customers and prospective customers to minimize potential credit risk. Credit evaluations are performed by the Group before agreements are entered into with prospective customers.

The Group establishes an allowance amount for impairment that represents its estimate of losses in respect of trade and other receivables. Subsequently, when the Group is satisfied that no recovery of such losses is possible, the financial asset is considered irrecoverable and the amount charged to the allowance account is then written off against the carrying amount of the impaired financial asset.

Cash at bank and fixed deposits are placed with financial institutions which are regulated. As at the reporting date, there is no significant concentration of credit risk. The maximum exposure to credit risk is represented by the carrying value of each financial asset on the Balance Sheet.

#### i) Expected credit loss (ECL) assessment for customers as at March 31, 2025 and March 31, 2024

The Group allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (including but not limited to past payment history, security by way of deposits, external ratings, audited financial statements, management accounts and cash flow projections and available press information about customers) and applying experienced credit judgment. The following table provides information about the exposure to credit risk and expected credit loss for trade receivables.

Particulars	As at March 31, 2025	As at March 31, 2024
Gross carrying amount	8.11	8.24
Expected loss rate	0.00%	39.17%
Expected credit losses (Loss allowance provision)	-	3.23
Carrying amount of trade receivables (net of impairment)	8.11	5.01

Note: For the year ended March 31, 2024 the group has made provision for expected credit loss in accordance with the provision matrix as per Ind AS 109.

#### ii) Loans:

Risk assessment	Year ended	Estimated gross carrying amount at default	Expected probability of default	ECL	Carrying amount, net of provision
Loss at 12	Risk same since	As at March			

month ECL	initial recognition	31, 2025	-	-	-	-
		As at March 31, 2024	-	-	-	-

### iii) Cash and cash equivalents

The Group holds cash and cash equivalents of INR 28.96 crores as at March 31, 2025 (March 31, 2024: INR 32.70 crores). The cash and cash equivalents are mainly held with banks which are rated AAA- to AA- based on third party ratings. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

### iv) Other financial assets

The Group considers that its other financial assets have low credit risk based on its nature.

### c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out by the Management of the Group in accordance with practice and limits set by the Group. In addition, the Group's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

### 'Exposure to liquidity risk

The table below details the Group's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

d) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

i) Currency risk

The Group's functional currency is Indian rupees (INR). The Group undertakes transactions denominated in foreign currencies; consequently, exposure to exchange rate fluctuations arise. Volatility in exchange rates affects the Group's expenses, primarily in relation to other services.

Adverse movements in the exchange rate between the Rupee and any relevant foreign currency result's in the Group's overall debt position in rupee terms without the Group having incurred additional debt and favorable movements in the exchange rates will conversely result in reduction in the Group's receivables in foreign currency.

The Group does not have any foreign currency monetary assets and liabilities as at March 31, 2025 and March 31, 2024.

ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is not exposed to the risk of changes in market interest rates as there are no outstanding debt obligations with floating interest rates as at March 31, 2025 and March 31, 2024.

**Textual information (6)****Disclosure of defined benefit plans [Text Block]**

## Employee benefits

## (i) Short-term obligations

Short-term employee benefits are measured on an undiscounted basis and expensed as the related service is provided. Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

## (ii) Post-employment obligations

The Group operates the following post-employment schemes:

## a) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Group makes specified monthly contributions towards employee provident fund and employees' state insurance to Government administered provident fund scheme which is a defined contribution plan. The Group's contribution is recognised as an expense in the Statement of profit and loss during the period in which the employee renders the related services.

## b) Defined benefit plans

For defined benefit plans in the form of gratuity (unfunded), the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

### Disclosure of fair value measurement [Text Block]

#### Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of assets or liability fall into different levels of fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.
