The Company's risk management system is geared towards identifying the risks the entity is exposed to, assessing their magnitude, monitoring them, and controlling or mitigating them using a variety of policies and procedures. Enterprise Risk Management Policy and operating procedures encompass an approved risk matrix consisting of relevant risks, broadly segregated into groups viz: Credit Risk, Market Risk, Operational Risk, Underwriting Risk and Strategic Risk.

**Credit Risk**

**Market Risk**

**Operational Risk**

**Underwriting Risk**

**Strategic Risk**

## Credit Risk

Credit risk or the risk of default of counterparties is sought to be mitigated by investing in securities within acceptable credit ratings and by periodically conducting scenario analysis as well as a review of changes in credit ratings for all the companies we invest in. The Company also seeks to deal with financially sound reinsurers reducing our exposure to credit risk on account of reinsurer default.

## Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk Management (ORM) comprises procedures and practices to monitor, prevent, control and mitigate operational risk. Effective ORM system leads to strengthening of business processes, acts as a guideline for holistic decision making and helps achieve business objectives by managing day-to-day risks.

## Market Risk

Market risk arises from unexpected losses arising due to changes in market prices or from changes to the net worth of assets and liabilities. The risk is mitigated by maintaining a desired mix between debt and equity subject to investment regulations by Insurance Regulatory and Development Authority of India (IRDAI) guidelines and active asset management based on asset and liability duration matching, which limits the impact of interest rate changes. Most of the risks that the Company carries from a Market risk perspective pertain to its investment book. The Investment Committee oversees the risk on investments.

## Underwriting Risk

Underwriting Risk refers to the risk faced by the Company concerning the selection and retention of risks on its books. These risks also cover the adequacy of protection that the Company buys to ensure that its portfolio is secure and protected from financial risks in case of widespread catastrophic events.

## Strategic Risk

Strategic Risk refers to the risk associated with the long-term strategy of the Company and includes areas such as reputation risk, return on equity risk, regulatory risk, etc., within its purview.

## Business Continuity Management

The Company has defined business continuity objectives based on its business requirements, commitment to its customers and stakeholders, commensurate to the risk environment that it operates in and applicable legal responsibilities. Mitigation and management of Business continuity risks are addressed by establishing adequate levels of prevention and resilience in Company services to mitigate the impact of a potential disaster or other disruptions to business continuity. Business Continuity Management protects and supports Company employees, assets and business in the event of disruption and resumes critical activities and support functions within the best possible timeframe.

## Information Security

The Company is cognizant that Information and Cyber security is a critical area. To adequately address these risks, the Company has in place an Information Security team which is headed by the Chief Information Security Officer (CISO). The Information Security Forum (ISF) is convened by the CISO. The forum oversees all information security-related activities carried out by the Company.

## Risk Governance

SBI General has developed an integrated ERM framework that incorporates all elements that together form a strong basis for effective, enterprise-wide, integrated risk management. The risks are reviewed by internal committees, the Board-mandated Risk Management Committee, as well as the Board of Directors. These reviews ensure that the risks faced by the Company are being appropriately identified, monitored and adequately managed in line with our defined risk appetite and risk tolerance limits. The Company has in place appropriate policies and frameworks to identify, assess and manage risk. Additionally, there are internal committees to review the risk exposure to the Organization on a periodic basis. All key risks as part of the risk universe are reviewed by the Senior Management and the Risk Management Committee of the Board every quarter. The Risk team led by the Chief Risk Officer of the Company is responsible for the implementation and monitoring of the framework. The framework complies with the regulatory landscape and can amalgamate new regulations and requirements that are and will be applicable to the insurance industry. As risk management is a dynamic and iterative process, continuous improvement is key in ensuring its ongoing effectiveness and efficiency.

# Approach to ESG

We at SBI General has instituted an Environmental, Social and Governance (ESG) policy, aligned with the United Nations Environment Programme Finance Initiative (UNEP FI) principles, to integrate ethical, environmental, and social considerations into our business activities. ## ii. Underwriting

Your Company accepts insurance risks as per the Underwriting Policy approved by the Board which is reviewed annually. The Company continues to write business on a risk-based pricing approach. The Company's risk selection and approach remains consistent over time which is reflected in the loss ratios of the Company. However, where warranted, Company has taken corrective actions to improve the loss ratios in various portfolios.

The year under review brought an above industry growth rate in Fire, Engineering and Marine Line of Businesses as well as a much better growth than prior period in respect of Long Term Home, Crop and Motor Third Party segments.

The Company has continued to pursue a calibrated approach for risk acceptance during the period. Further, the Company is geared to face the Competition in FY 24 across multiple Lines of Business and the aim of the Company will be focused on achieving sustainable growth.

The Company successfully completed product introduction activity in the Commercial segment such as Commercial Crime, Trade Credit for Project and Bank risks, Add-ons in the Fire and Engineering line of businesses, and for the Retail segment the Company introduced Griha Raksha Plus for providing extended period cover for Home loan business as well as new Add-ons for the Motor segment. Minimum pricing requirements in Property reinsurance treaties, which was implemented effective 1<sup>st</sup> April 2019 has continued during the period. We expect the positive impact on profitability of this segment to continue in the medium term. However for the upcoming year the pricing will see adjustments for risk management practices and better loss ratios and voluntary deductibles.

## iii. Reinsurance

Your Company's business portfolio is protected by way of adequate reinsurance arrangements such that the Company's exposure to a large loss, affecting a single risk or a series of losses affecting a number of risks arising out of a single catastrophic event does not materially impact the Company.

## iv. Claims

At SBI General, 6,20,651 claims intimations were handled in FY23 as against 8,15,452 claims in FY22. There is an overall decrease of 24% in number of claims. This is attributed to reduction in Covid related claims in Health and negligible number of CAT-event related claims in Property Lines. SBIG have settled 6,29,246 claims in the fiscal, achieving an overall claims settlement ratio of 98%.

### Motor OD

In Motor OD, SBIG have handled 3,24,991 new claims – up 12% over previous year. This increase is propelled mainly by 2W segment which now accounts for about 13% of our total Motor OD Claims. The Motor OD Net Promoter Score (NPS) has been steady at 63. SBIG settled over 13000 claims of 4W Private Cars through **FastLane** method, a cash-loss offer to claimants of small repairable losses, bringing savings to the Company, and satisfaction for our Customers. SBIG also implemented a lot of digital initiatives to help our Customers and reduce internal process overheads.

### Motor TP

The last two financial year saw significant increase in Court cases backlog as they were mostly non-operational in years before. The focus this year, therefore, was to push as many conciliations as possible. While in the previous financial year a total of 1738 TP claims were settled through negotiations, in fiscal year 23, we successfully concluded 4018 cases. SBIG was successful in getting 373 exonerations, a few of them were of high value. Total liability avoided in exonerations is to the tune of ₹ 41.25 Crores. In 686 cases, we have received awards. While the total reduction in TP claims was 5077, a total 7667 new cases were reported. Our thrust on higher negotiations has paid off in keeping our inventory of open cases low.

## Health Claims

At SBI General, we have handled about 450,954 Health claims during the fiscal year 2022-23 and achieved 99% claims settlement ratio. The Regulator has continuously revised Guidelines on handling Health claims related to COVID-19. At SBI General, we have ensured strict compliance with all Guidelines. NPS for Health claims improved by 1 point i.e. (from 61 to 62) in this fiscal year. SBIG undertook various initiatives like deeper engagement with TPAs, consistent reviews of outstanding claims and aggressive follow-ups on reimbursement claims. NPS had some collateral impact on certain challenges from pandemic-related issues.

In FY 2022-23, the in-house health operations started at the Pune Health Hub. All retail health policies (fresh and renewal) are being serviced inhouse with effect from 1<sup>st</sup> June 2022. Corporate group health policies are also being serviced in a phase wise manner from 1<sup>st</sup> October 2022. In the Commercial Lines area, SBIG have handled 11,360 claims (excluding Crop) during the fiscal year. SBIG had very miniscule catastrophic event claims this year. The Net Promoter Score for Commercial Lines claims is up and stood at 92 in March 2023.

In the fiscal year, SBIG carved out a niche claims management Team for Specialty Lines claims – Liability, Trade Credit, Event, Cyber, Crop and Inward Coinsurance. This Team has added value to the Company by enhancing the client and producer experience. In Crop, the Company has successfully migrated to the Government of India's **DigiClaim** initiative through National Crop Insurance Portal (NCIP) based settlement of Crop claims. Now Crop claims are settled directly to the account of the farmer beneficiary. SBI General settled maximum number of claims – both in count and amount, among the Private Sector GI companies through this new method.

## Our digital journey continues

SBIG deployed several digital tools, and enhanced features in a few existing ones, aiming Customer delight and ease of work. Many new dashboards for internal information sharing were deployed.

4. Enhancement of information sharing on Workshop portals, etc.

The Company remains focussed on improving the experience for our Customers, Producers and Employees at the same time bringing productivity, efficiency and cost-effectiveness.

## Claims Reserving:

The Incurred But Not Reported (IBNR) & Incurred But Not Enough Reported (IBNER) (hereafter combinedly referred to as "IBN(E)R") reserve incorporated in the financial statements is certified by the Appointed Actuary and is calculated based on actuarial principles in accordance with the Institute of Actuaries of India Actuarial Practice Standards and Guidance Notes and IRDAI regulations and guidelines. It takes account of exposure and claim patterns by major Line of Business and significant segments of business within the Lines of Business where appropriate.

Different projection and assumption selection methods continue to be used reflecting the nature of the claims and exposure within the segments. Methods included the Bornhuetter-Ferguson, Chain Ladder, Ultimate Loss Ratio and Average Cost Per Claim (ACPC). The reserves contain an allowance for future direct and indirect Claims Handling Expenses (CHE) relating to claims already incurred and for a Risk Margin (RM) or Margin for Adverse Deviation (MAD) over the central estimate to increase the probability of adequacy to be greater than 50%.

Estimated reserves include specific IBN(E)R to allow for the expected impact of the reinsurance treaty features (like indexation clause and clean-cut arrangement) and expected impact of other orphan claims and free-look policy cancellation as applicable. As required by regulations, IBN(E)R reserves are not discounted and are not negative for any Accident Year (AY).

The reserves are set to be appropriate for the year-end statutory accounts. A change in accounting standards (e.g., move to IFRS-17) will have an impact on the level of estimated reserves.

Actual IBN(E)R claims are impacted by changes in external world like COVID-19 epidemic (associated lockdowns to curb the virus spread and court closures), economic growth / recession, medical and wage inflation, changes in minimum wages, amendments to Motor Vehicles Act and its enforcement, unemployment rate, weather conditions, landmark court judgements and litigiousness of society.

Actual IBN(E)R claims are also impacted by internal factors like changes in sales methodology and associated target policyholder mix, geographical mix, introduction of new products, changes in Policy coverages or terms and conditions, changes in underwriting standards, changes in case reserving standards and claim settlement practices and guidelines, and changes in the reinsurance arrangements purchased.

IBN(E)R Reserves represent the Appointed Actuary's estimate of the net impact of these factors using various models and assumptions. There is inherent uncertainty in the estimates, as with any estimates of unknown past and future events and trends. The IBN(E)R reserves together with Case estimates in the published accounts relate to the undiscounted estimate of insurance losses that develop post the year-end accounting date in respect of all prior accident years.

### Development of Insurance Losses, Net of Reinsurance

First Table, Net Incurred Losses and Allocated Expenses (Ultimate movement) - separately for the Total Company and for the Motor Third Party Liability Portfolio (Motor TP) - provides the snapshot of the Net Ultimate Claims estimated for each of the last ten Accident Years separately and all prior Accident Years combined and the development of these estimates over time. The estimate of Net Ultimate Claims changes as more information about the nature of the claims and the impact of legislative changes, medical and wage inflation becomes known. The latest estimate of Net Ultimate Claims for each Accident Year is compared against the original estimate of Net Ultimate Claims for each Accident Year at the bottom of the table. This shows the strength of the original estimate of Net Ultimate Claims for each Accident Year.

There is limited value, however, in comparison to the original estimate as the same level of deficiencies or redundancies may not be maintained over time. Further, it is noted that presence of Crop & Weather portfolio complicates the interpretation of the statistics as claims are incurred at the end of the Season when claims become known, although we set an IBN(E)R Reserves as premium gets earned. As the premium for a single Season generally spreads over two Financial Years there may be a mismatch between Crop & Weather claims (typically booked against Policy End Date) and IBN(E)R recognition happening throughout the policy period.

Second table, Net Unpaid Losses and Loss Adjustment Expenses - separately for the Total Company and for the Motor Third Party Liability Portfolio (Motor TP) - provides the snapshot of the Net Unpaid Losses for each of the last ten Accident Years separately and all prior Accident Years combined and the development of such losses over time. Net Unpaid Losses represent Net case estimates and Net IBN(E)R estimates together. Net Unpaid losses change over time as claims get settled or closed and Net Ultimate gets revised basis new information coming to light. The difference between the two tables (Net Ultimate and Net Unpaid losses) is cumulative Net claims Paid.

## Responsibilities of management for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and receipts and payments of the Company in accordance with the requirements of the Insurance Act 1938, as amended by Insurance Laws (Amendment) Act, 2015 read with the IRDA Act, the Regulations, order/ directions issued by the IRDAI in this regard and in accordance with the accounting principles generally accepted in India including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and current practices prevailing within the insurance industry in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2(i) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of SBI General Insurance Company Limited on the financial statement as of and for the year ended March 31, 2023]

### Report on the Internal Financial Controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the aforesaid financial statements of SBI General Insurance Company Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

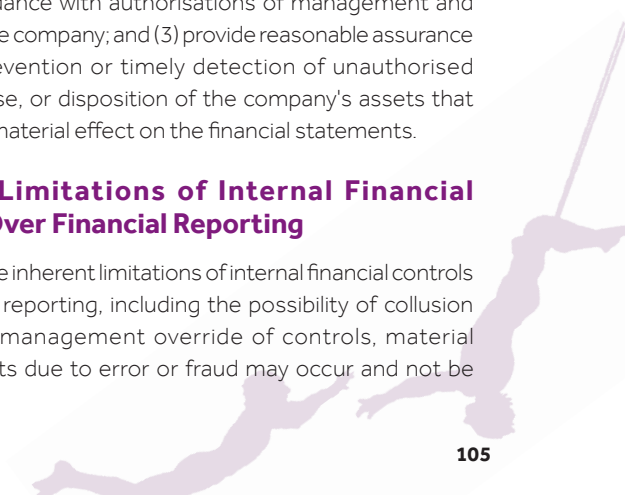

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be

detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Other Matters

The actuarial valuation of liabilities in respect of Claims Incurred But Not Reported (IBNR) and Claims Incurred But Not Enough Reported (IBNER) is the responsibility of the Company's Appointed Actuary. The actuarial valuation of these liabilities as at March 31, 2023, has been duly certified by the Appointed Actuary. The Appointed Actuary have also certified that in their opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by Insurance Regulatory and Development Authority of India ("IRDAI") and the Institute of Actuaries of India in concurrence with the Authority. Accordingly,

our opinion on the Internal Financial Control does not include reporting on the adequacy and operative effectiveness of the Internal Control over the valuation and accuracy of the aforesaid actuarial liabilities. Our opinion is not modified in respect of this matter.

### Opinion

In our opinion, the Company has, in all material respects, maintained an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
